

Item 4
November 20, 2025
Council Member Alter
Motion 1

Motion Sheet

I move to direct the City Auditor to develop a public facing website that inventories completed and underway studies of city operations, including relevant audits, studies, and consultant reports. The City Auditor is directed to develop a reporting and monitoring program around the recommendations from these reports that captures implementation information as reported by the City Manager and any efficiencies or financial savings that have resulted. The Office of the City Auditor, as a part of its regular performance audit work plan, should evaluate the reported implementation and results, and develop a regular report on progress to the Audit and Finance Committee of Council.
