

Mayor Kirk Watson
Item No. 41
April 10, 2025

Motion Sheet: Report and Recommendations

The City Manager is directed to present a report to City Council on the implementation of the 2024 Wildland Urban Interface (WUI) Code. The report shall include:

1. the number of building permits reviewed under the WUI Code and denied for non-compliance with the WUI Code;
2. information on the length and cost of reviews; and
3. the staff resources required to review for compliance with the WUI Code.

The City Manager is directed to provide the report on an annual basis until the adoption of the next WUI Code update.

The City Manager is also directed to explore options that can increase voluntary retrofitting of existing residential structures to advance mitigation of wildfire risk.
