CASE: C14-2024-0114 - 5210 Bruning Ave

DISTRICT: 9

ZONING FROM: GR-CO-NP

ZONING TO: GR-MU-V-CO-DB90-NP

ADDRESS: 705 East 53rd Street and 5210 Bruning Avenue

PROPERTY OWNER: JEV Family LTD

SITE AREA: 0.3520 acres  
(15, 333 sq. ft.)

AGENT: Drenner Group, PC (Leah Bojo)

CASE MANAGER: Cynthia Hadri 512-974-7620, [Cynthia.hadri@austintexas.gov](mailto:Cynthia.hadri@austintexas.gov)

### STAFF RECOMMENDATION:

The staff recommendation is to grant community commercial - mixed use - vertical mixed use building - conditional overlay - density bonus 90 - neighborhood plan (GR-MU-V-CO-DB90-NP) combined district zoning. The proposed conditional overlay maintains the conditions on Tract 61 from Ordinance No. 020523-31 in the North Loop Neighborhood Plan Rezoning case C14-02-0009.

- Automotive rentals
- Automotive repair services
- Automotive sales
- Exterminating services
- Funeral services
- Hospital services (general)
- Medical offices (exceeding 5,000 sq. ft.)
- Pawn shop services
- Residential treatment
- Service station

The following uses are conditional uses on the property:

- Congregate living
- Drive-in service as an accessory use to a commercial use

### PLANNING COMMISSION ACTION / RECOMMENDATION:

**January 14, 2025:** APPROVED THE STAFF'S RECOMMENDATION FOR GR-MU-V-CO- DB90-NP.

### ORDINANCE NUMBER:

ISSUES:

In December 2023, Ordinance No. 20220609-080, Ordinance No. 20221201-056 and Ordinance No. 20221201-055 were invalidated. On March 11, 2024, Ordinance No. 20240229-073, was enacted to create the “DB90” combining district, which amended City Code Title 25 (Land Development) to create a new zoning district for a density bonus program that grants 30 feet in height above the base zoning district, to a maximum of 90 feet, and modifies site development regulations including compatibility standards. Subsequently, the applicant submitted this new rezoning application to request the -DB90 combining district.

CASE MANAGER COMMENTS:

The property in question is approximately 0.35 acres, partially developed with single family residential, has access to East 53<sup>rd</sup> Street (level 2) and Bruning Avenue (level 1) and is zoned general community commercial - conditional overlay - neighborhood plan (GR-CO-NP). The property has single family residences (SF-3-NP) to the north, south and west and Automotive uses (CS-CO-NP) to the north. There is a church (SF-3-NP) to the south along with a variety of commercial uses and food sales (CS-MU-CO-NP, CS-MU-V-NP and LR-MU-CO-NP) to the south, east and west. Please refer to Exhibits A (Zoning Map) and B (Aerial View).

The applicant is requesting grant community commercial - mixed use - vertical mixed use building - conditional overlay - density bonus 90 - neighborhood plan (GR-MU-V-CO-DB90-NP) combining district for a proposed development that would include multi-family units requiring an affordable component. A building constructed under density bonus 90 (DB90) standards allows for a mix of residential uses and commercial uses, and the result is typically retail, restaurants and offices on the ground floor, and residential units on upper levels. The overall project would consist of approximately 30 residential units and will not be seeking a modification for the ground floor commercial space requirement. Please refer to Exhibit C (Applicant’s Summary Letter).

Staff is recommending the community commercial - mixed use - vertical mixed use building - conditional overlay - density bonus 90 - neighborhood plan (GR-MU-V-CO-DB90-NP) combining district zoning for the proposed 30 residential units, to allow for a unified development with a total of 139 dwelling units. The GR-MU-V-CO-DB90-NP request will allow for more density near the Airport Blvd Core Transit Corridor. The site is located within the North Loop Neighborhood plan and within the Highland Mall Station Regional Center.

A development utilizing the “density bonus 90” incentives is permitted with a base GR district and must include an affordability component for residential use in order to obtain incentives, including height maximum of 90 feet in the GR district (60 feet base plus 30 feet incentive) and relaxation of development and compatibility standards, such as FAR, setbacks and building coverage. There are several methods of satisfying DB90 development affordability requirements.

There are two options for projects including rental units:

- 1) a minimum of 12% of the rental units in a building are affordable for a 40-year period for households earning 60% or less than the Austin-Round Rock Metropolitan Statistical Area MFI; or
- 2) a minimum of 10% of the rental units are affordable for a 40-year period as described above for households earning 50% or less MFI.

There are two options of satisfying DB90 development affordability requirements which include ownership units:

- 1) a minimum of 12% of the residential units in a building are affordable for a 40-year period for households earning 80% or less than the Austin-Round Rock Metropolitan Statistical Area MFI; or
- 2) an in-lieu-fee payment to the Housing Trust Fund, equivalent to the required percentage of the total residential units, including the mix of bedrooms required, at the rate set in the fee schedule at the time of final site plan submission.

BASIS OF RECOMMENDATION:

- a) The rezoning should be consistent with the policies and principles adopted by the City Council.

City Council has provided policy and direction for having more residential density and increased affordability, as well as incentivizing vertical mixed use buildings throughout the City. This request is consistent with the “VMU2” option and Ordinance No. 20240229-073, which replaced the invalidated “VMU2” option.

- b) The proposed zoning should be consistent with the purpose statement of the district sought.

The community commercial district is intended for office and commercial uses serving neighborhood and community needs, including both unified shopping centers and individually developed commercial sites, and typically requiring locations accessible from major traffic ways.

The mixed use combining district is intended for combination with selected base districts, in order to permit any combination of office, retail, commercial, and residential uses within a single development.

The vertical mixed use building (v) combining district may be applied in combination with any commercial base zoning district and allows for a combination of office, retail, commercial and residential uses within a vertical mixed use building.

The conditional overlay combining district may be applied in combination with any base district. the district is intended to provide flexible and adaptable use or site development regulations by requiring standards tailored to individual properties.

The density bonus 90 combining district, in exchange for providing affordable housing units and in combination with commercial base zoning districts, allows a mixture of office, retail, commercial, and residential uses with modifications of compatibility standards and site development regulations including increased building height.

The neighborhood plan district denotes a tract located within the boundaries of an adopted neighborhood plan.

- c) Zoning should promote clearly-identified community goals, such as creating employment opportunities or providing for affordable housing.

This rezoning authorizes a property to participate in a voluntary density bonus or incentive program that provides modifications to development regulations or other regulatory-related benefits in exchange for community benefits. In exchange for increased development potential, the development is required to comply with affordable housing requirements.

ADDITIONAL STAFF COMMENTS:

Comprehensive Planning:

Project Name and Proposed Use: 5210 BRUNING AVENUE. C14-2024-0114. North Loop Neighborhood Plan. FLUM: Mixed Use. Project: 5210 Bruning Avenue. 0.3520 acres from GR-CO-NP to GR-MU-V-CO-DB90-NP. Demolition is proposed, with 1 residential unit to be demolished. Existing: vacant and 1 single family. Proposed: 30 multifamily units. Proposal seeks Density Bonus 90 Combining District (Ordinance No. 20240229-073), which sets affordability minimums on ownership and rental units, and further allows for an increase of up to 30 ft in height above the base zone allowance, with a maximum limit of 90 feet in total height. DB90 additionally releases the site from some base zoning district development standards, including maximum floor area ratio.

Drainage:

The developer is required to submit a pre- and post-development drainage analysis at the subdivision and site plan stage of the development process. The City’s Land Development Code and Drainage Criteria Manual require that the Applicant demonstrate through engineering analysis that the proposed development will have no identifiable adverse impact on surrounding properties.

Environmental:

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Boggy Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Zoning district impervious cover limits apply in the Urban Watershed classification.

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Fire: There are no comments.

PARD – Planning & Design Review:

Parkland dedication will be required for the new dwelling units proposed by this development, multifamily with DB90 zoning, at the time of subdivision or site plan, per City Code § 25-1-601. Whether the requirement shall be met with fees in-lieu or dedicated land will be determined using the criteria in City Code Title 25, Article 14, as amended. Should fees in-lieu be required, those fees shall be used toward park investments in the form of land acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-609, as amended.

If the applicant wishes to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: [thomas.rowlinson@austintexas.gov](mailto:thomas.rowlinson@austintexas.gov). At the applicant's request, PARD can provide an early determination of whether fees in-lieu of land will be allowed.

Site Plan:

Site plans will be required for any new development other than single-family or duplex residential.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Compatibility Standards

The site is subject to compatibility standards due to the [proximity/adjacency] of SF3 zoning on the Southwest side of property.

## DB90 Rezoning

This site must meet affordability minimums to be eligible for DB90. A signed approval letter from the Housing Department will be required with site plan submittal.

Bruning Ave is the Principal Street for this site. Any buildings fronting this street will be required to have 75% of the ground floor as commercial uses.

This site is adjacent to a site that contains one to three dwelling units and is zoned SF-5 or more restrictive. A compatibility buffer 25' in width, designed to 25-8-700 and 25-2-652(G) will be required.

This tract is already developed, and the proposed zoning change is a footprint within the existing development

FYI This site is in the North Loop Neighborhood Plan

Re: 5210 Bruning Avenue – Zoning application for the 0.352-acre combined properties located at 705 E 53rd Street and 5210 Bruning Avenue, Austin, TX 78751, comprised of TCAD IDs: 2012218893 and 2012218894 (the "Property")

Dear Ms. Middleton-Pratt:

As representatives of the owners of the Property, we respectfully submit the enclosed Zoning application package. The project is titled 5210 Bruning Avenue and 0.352-acres of land, located on the south side of E 53<sup>rd</sup> Street between Martin Avenue and Eilers Avenue. The Property is in the Full Purpose Jurisdiction of the City of Austin.

The Property is currently zoned GR-CO-NP (Community Commercial – Conditional Overlay – Neighborhood Plan). The requested zoning is to GR-MU-V-CO-DB90-NP (Community Commercial – Mixed Use – Vertical Mixed-Use Building – Conditional Overlay – Density Bonus 90 – Neighborhood Plan).

Zoning Ordinance No. 20020523-031 established the Neighborhood Planning Area, as well as the Conditional Overlay which applies to 5301 Martin Avenue. The Conditional Overlay restricts certain uses on the Property as shown below, which we propose to remain.

The following uses are prohibited on 705 E 53<sup>rd</sup> Street:

- Automotive rentals
- Automotive sales
- Funeral services
- Medical offices (exceeding 5,000 sq. ft.)
- Residential treatment
- Automotive repair services
- Extermination services
- Hospital services (general)
- Pawn shop services
- Service station
- Congregate living
- Drive-in service as an accessory use to a commercial use

This request includes the DB90 (Density Bonus 90) combining district, that was recently approved on February 29, 2024, via Ordinance No. 20240229-073.

June 27, 2024

Page 2

The Property is located in the North Loop Neighborhood Planning Area (NPA) and has a Future Land Use Map (FLUM) designation of Mixed Use. The FLUM designation will remain as Mixed Use and a Neighborhood Plan Amendment is not necessary.

A Traffic Impact Analysis (TIA) determination is currently pending with the Austin Transportation Department. This rezoning application is associated with two (2) other rezoning applications titled 704 E 53<sup>rd</sup> Street and 5301 Martin Avenue.

Please let me know if you or your team members require additional information or have any questions. Thank you for your time and attention to this project.

Sincerely,

Leah M. Bojo

## IMPACT ON SCHOOLS

In December 2024 the Educational Impact Statement was submitted to the City of Austin for 139 MF units. The student yield factor of 0.127 (across all grade levels) for apartment homes was used to determine the number of projected students. This was determined by the district’s demographer by looking at the district average for multifamily units.

Due to the location of the proposed development, there is a road that will go through, and the development would be zoned to two different elementary schools. The project will demolish 3 units and propose 139-unit multifamily development. It is projected to add approximately 19 students across all grade levels to the projected student population. It is estimated that of the 19 students, 6 will be assigned to Reily Elementary School, 2 to Ridgetop Elementary 4 to Lamar Middle School, and 6 to McCallum High School.

The percentage of permanent capacity by enrollment for School Year 2028-29, including the additional students projected with this development, would all be below the optimal utilization target range of 85-110% at Ridgetop ES (81%), at optimal utilization at Reily ES (94%), and above at Lamar MS (127%) and McCallum HS (123%). The enrollment at Lamar MS and McCallum HS will need to be closely monitored to determine the impact on its capacity.

## TRANSPORTATION IMPACT

Students who will be attending Reily, Ridgetop and McCallum will be considered walkers unless a hazardous route is determined. Students attending Lamar will be eligible for transportation, but no added bus will be needed.

## SAFETY IMPACT

There are not any identified safety impacts currently.

### PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted both online and in-person at which you will have the opportunity to speak FOR or AGAINST the proposed development or change. Contact the case manager for further information on how to participate in the public hearings. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

Staff is conducting a **pilot program to receive case-related comments online** which can be accessed through this link or QR code: <https://bit.ly/ATXZonineComment>.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website: [www.austintexas.gov/planning](http://www.austintexas.gov/planning).

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice. Correspondence and information submitted to the City of Austin are subject to the Texas Public Information Act (Chapter 552) and will be published online.

There are already too many structures in the area & we can't handle more traffic & crime. Not to mention the insane parking situation - (NOISE!) There are so many people parking on neighborhood streets you can barely drive down street!

Thank you Cynthia for responding to my email regarding the properties on Martin, Bruning and 53rd street. I plan on attending via online on January 14th. The notice says if I want to participate at the Hearing I have to register to speak in advance. Can you tell me how I can register.

Thanks,  
Dave & Pam Ross

Hi David and Pam,

I'm sorry for the late response, I was out of the office. There are three individual rezoning cases submitted for one unified development. The applicant is seeking multiple rezonings in order to build approximately 139 multifamily residential units with ground floor commercial on the properties.

For case C14-2024-0112, the zoning request is to go from CS-CO-NP & SF-3-NP to CS-MU-V-CO-DB90-NP. The addresses associated with this rezoning are 5301 and 5303 Martin Avenue. Approximately 36 dwelling units are proposed to be constructed with a request of 90 feet for max height.

For case C14-2024-0113, the zoning request is to go from CS-CO-NP to CS-MU-V-CO-DB90-NP. The addresses associated with this rezoning are 704, 706, 706 1/2 and 708 East 53rd street. Approximately 73 dwelling units are proposed to be constructed with a request of 90 feet for max height.

For case C14-2024-0114, the zoning request is to go from GR-CO-NP to GR-MU-V-CO-DB90-NP. The addresses associated with this rezoning are 5210 Bruning Avenue and 705 East 53rd Street. Approximately 30 dwelling units are proposed to be constructed with a request of 90 feet for max height.

The notice does have the acronym descriptions but if you'd like me to send those via email I can. Also, if you'd like to discuss over the phone I am happy to give you a call and discuss these cases with you and/or Pam. I can also connect you directly with the applicant, Leah Bojo, if you'd like.

We received a notice of Public Hearing for Rezoning to be heard by the Planning Commission on January 14, 2025. In order to understand the cases we would like to know what the proposed zoning change is. The letter states it is going from GR-CO-NP to GR-MU-V-CO-DB90-NP. Can you please explain in layman terms what this means.

External Email - Exercise Caution

Good afternoon,

I plan on attending the public hearing, as I object the rezoning that the JEV Family LTD is intending. The owner has been a terrible land use commercial company and has several violations, especially at 5210 Bruning Ave. E.g., In Aug 2019, Tammy Lewis (code inspector) put signs in the alley saying it would be a \$2,000 fine for littering, as they have so much litter.

My former neighbor reported this on Aug 12, 2019:

*"Thank you for reporting your city services needs. Your service request for Austin Code - Request Code Officer, 79-00305895, has been closed and transferred to the Austin Code Department's system for investigation. Below are details on the assigned Inspector, their contact information, and your case number: 2079-766290 CC Inspector Name: Edmond Su Inspector Phone: 572-974-2519 Address: 5210 BRUNING AVE City: AUSTIN Zip Code: 78751"*

T hey abandoned cars and put them in the alley and sometimes parked on my property:

And put vehicles in the alley in the past (glad they are not doing that now):

Loads of litter in the past and still currently:

Will they keep this tree, as it is a native and should not be torn down:

Case14-2024-0114.jpeg

Case\_C14-2024-0113.jpeg

I hope my documentation makes sense to your group.

Teresa

After a long day of work, really sad to come home to see my garage burgled again (hit in May). I've been looking at web cameras, etc. but did not have time to invest in a system for my garage. I had my Orbea Orca cable-locked to an eye-bolt within my garage, but they just cut it (probably with my tools they didn't take in May). I am deducing that the burglars saw me ride it somewhere in the 'hood, because in May it was in the shop (and I thought I was lucky).

The residents of 5210 Bruning Ave were probably the burglars.

Here's the attempted burglary at my back door, even though my house has a security system. Glad for my later residential neighbors built an ADU, so my property is looked after them.

Another big safety issue with 5210 Bruning is the board removed the restriction against transitional housing without notifying the homeowners in the area of this request in writing. That was not mentioned in the letter we received from the city in the mail. As shown below there is the Griffin school directly across the street from 5210 Bruning. Children walk to this building all day every school day from their main school building. This doesn't seem safe to me. The white house on the left is 5210 Bruning and the green street sign on the right is the school.

Attached is a picture of parking on 52'nd street near 5210 Bruning. Most of these cars are Home Slice Pizza customers. No sidewalks, no streetlights.

I did not receive an e-mail with remote instructions so I would appreciate you forwarding this objection e-mail to the review board for further consideration.

Item #14 5210 Bruning is a small triangle .352 acre lot with 53rd on one side, Bruning on another side, an alley on the back and Clarkson and Middle Fiskville roads both crossing in front of the lot. The front corner of the lot is approx. 100 feet from a rail road crossing and maybe another 100 more feet to Airport road so it is a very busy intersection that is 10X worse then a train is crossing.

Parking is another issue. Home Slice Pizza is 2 short blocks away and their parking lot only holds maybe 10% of customers cars at night when the weather is nice so I would guess maybe 100 - 200 cars park bumper to bumper on the streets in the neighborhood.

There are very few sidewalks or street lights on these side streets. This makes walking and even driving very dangerous when cars park on both sides of the side streets at night. Where will parking be for 30 more family units along with apartment workers on a .35 acre lot? My guess is on the side streets. There is such a lack of street parking at night that many people park right up to the crossing intersections making it impossible to see cross traffic until you are already into the intersection. These are my main concerns.

Thanks  
David Ross

Hi David,

Apologies for you not being able to speak last night, I saw that you signed up to speak virtually and were sent the lift to call into the meeting from the Land Use Liaison. There should have been instructions in that email, however being that you were not able to speak to your opposition would you like to include it via email to me so I can include it in the staff report moving forward to City Council? I spoke with a few of the neighbors that came last night and they will also be sending in letters of opposition. There has also been someone that has reached out regarding the petition process so this should make it's way around the neighborhood soon as well.

Please let me know if you need anything else.

I was not able to speak against item #14 because I was not called on my phone number (as your e-mail said) I gave when registering. Star 6 did not work while viewing the meeting on the cities web site. I agree the item should have been post-poned until the February meeting with the neighborhood. How does one get into the que? The instructions in the e-mail and attachment are not clear at all.

Address of  
 Rezoning Request: C14-2024-0114

To: Austin City Council

We, the undersigned owners of property affected by the requested zoning change described in the referenced file, do hereby protest against any change of the Land Development Code which would zone the property to any classification other than GR-CO-NP

The proposed zoning change for this property is inappropriate and would negatively impact the community. The current zoning (GR-CO-NP) is already suitable for the property, allowing for multifamily housing all( S)J211 I I @i1/“bscs without the need for sin iipxrnc

Additionally, the property is requesting zoning changes along with two adjacent properties. The traffic analysis conducted for the proposed changes did not consider the zoning changes of this property at all. It considered each of the applications separately and did not look at the holistic impact of the zoning change of these three cases. While the rules state the staff must consider each application individually, we ask the City Council to consider the holistic impact of the zoning in their assessment.

Furthermore, the property owner has a long history of non-compliance with city regulations, including multiple code violations. The property has been allowed to fall into disrepair and has been used primarily as a dumping ground for junk cars. Granting this zoning change would reward a property owner who has shown a consistent disregard for the community and local rules, and would lead to even more neglect in the area in the future.

Comments: I DO NOT THINK A 90FT TALL BUILDING FITS INTO THE NEIGHBORHOOD. 30 FAMILY UNITS ON A 1/3 ACRE LOT WITH 30-60 CARS ON A VERY BUSY CORNER IS A BAD IDEA. ADDING ALLOWING A TRANSITION HOUSING DIRECTLY ACROSS THE STREET ISNT GOING TO BE SAFE A SCHOOL IS ON THE OTHER SIDE OF 5210 BRUNING.
