

## NEIGHBORHOOD PLAN AMENDMENT REVIEW SHEET

**NEIGHBORHOOD PLAN:** Montopolis

**CASE#:** NPA-2024-0005.01

**DATE FILED:** June 03, 2024

**PROJECT NAME:** Saxon Acres 2

**PC DATE:** January 14, 2025  
December 10, 2024  
October 22, 2024

**ADDRESS/ES:** 318 Saxon Lane and 6328 El Mirando Street

**DISTRICT AREA:** District 3

**SITE AREA:** 2.89 acres

**OWNER/APPLICANT:** Saxon Acres LLC

**AGENT:** Thrower Design, LLC (Victoria Haase)

**CASE MANAGER:** Maureen Meredith

**PHONE:** 512-974-2695

**STAFF EMAIL:** maureen.meredith@austintexas.gov

**TYPE OF AMENDMENT:**

**Change in Future Land Use Designation**

**From:** Single Family

**To:** Multifamily Residential

**Base District Zoning Change**

**Related Zoning Case:** C14-2024-0099

**From:** SF-6-NP

**To:** MF-2-NP

**NEIGHBORHOOD PLAN ADOPTION DATE:** September 27, 2001

**CITY COUNCIL DATE:**

**February 13, 2025**

**March 6, 2025**

**ACTION:** Postponed to March 6, 2025 at  
the request of the Neighborhood

**ACTION:** (action pending)

**PLANNING COMMISSION RECOMMENDATION:**

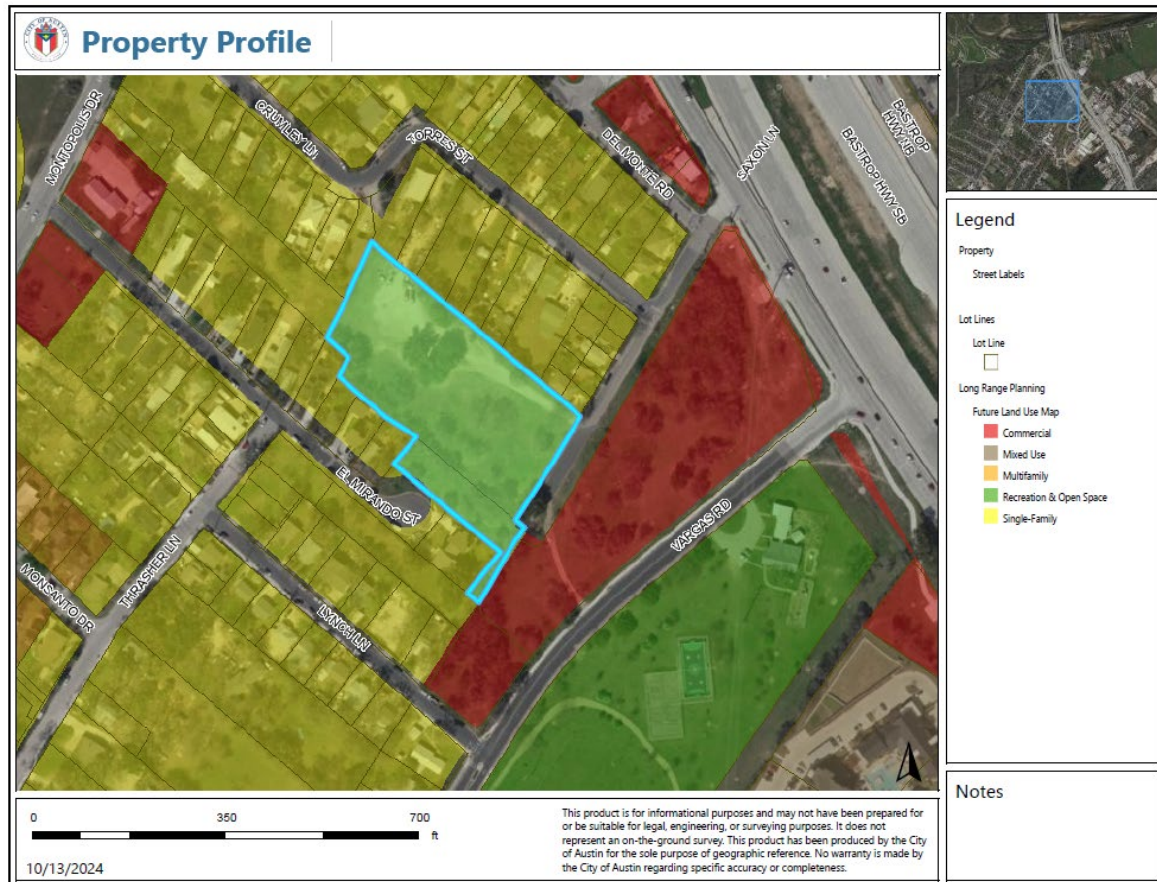

***January 14, 2025*** - After discussion, approved the applicant's request for Multifamily Residential land use. [F. Maxwell – 1<sup>st</sup>; G. Anderson -2<sup>nd</sup>] Vote: 10-0-2 [R. Johnson absent. N. Barrera-Rameriz and A. Haynes abstained].

***December 10, 2024*** - Postponed to January 14, 2025 at the request of the Applicant on the consent agenda. [A. Azhar – 1<sup>st</sup>; A. Woods – 2<sup>nd</sup>] Vote: 11-0 [G. Anderson and C. Haney off the dais].

***October 22, 2024*** – Postponed to December 10, 2024 on the consent agenda at the request of the Neighborhood.

**STAFF RECOMMENDATION:** Staff does not support the applicant's request for Multifamily Residential land use.

**BASIS FOR STAFF'S RECOMMENDATION:** Staff does not support the applicant's request for Multifamily Residential land use because staff has concerns about the limited vehicular access on Saxon Lane. The surrounding land uses are Single Family to the north, south and west of the property, with commercial land use to the east, across from Saxon Lane (proposed for Mixed Use in case NPA-2022-0005.01\_Vargas Mixed Use). Although staff supported the Mixed Use land use on the adjacent property, because of the access issues with Saxon Lane, staff does not support increasing the density of the subject tract. See associated zoning case report C14-2024-0099 for details.

The Montopolis Neighborhood Plan supports the creation of housing for all stages of life and also the preservation of single family housing. The proposed rezoning to MF-2-NP would add more housing to the planning area; however, the zoning staff case report details the issues regarding the vehicular access and impact on Saxon Lane which resulted in non-support for the proposed zoning change.

**Goal 2: Create Homes for all Stages of Life within Montopolis.**

**Objective 4: Enhance and protect existing single family housing.**

**Action 12:** Preserve the existing Single Family uses and zoning in the older, established areas of Montopolis. (Please refer to the Proposed Future Land Use Map, for specific land uses and locations.)

**Action 13:** Preserve residential zoning in the interior of East Montopolis to allow for new homes to be built. (Please refer to the Figure 4: Future Land Use Map, for specific land uses and locations.)

**Action 14:** Preserve Single Family zoning in the interior of South Montopolis. (Please refer to the Proposed Future Land Use Map, for specific land uses and locations.)

**Objective 5: Create multiple housing types of varied intensities.**

## **LAND USE DESCRIPTIONS:**

### **EXISTING LAND USE:**

**Single family** - Single family detached or up to three residential uses at typical urban and/or suburban densities.

#### **Purpose**

1. Preserve the land use pattern and future viability of existing neighborhoods;
2. Encourage new infill development that continues existing neighborhood patterns of development; and
3. Protect residential neighborhoods from incompatible business or industry and the loss of existing housing.

#### **Application**

1. Existing single-family areas should generally be designated as single family to preserve established neighborhoods; and
2. May include small lot options (Cottage, Urban Home, Small Lot Single Family) and two-family residential options (Duplex, Secondary Apartment, Single Family Attached, Two-Family Residential) in areas considered appropriate for this type of infill development.

### **PROPOSED LAND USE:**

**Multifamily Residential** - Higher-density housing with four or more dwelling units on one lot.

#### **Purpose**

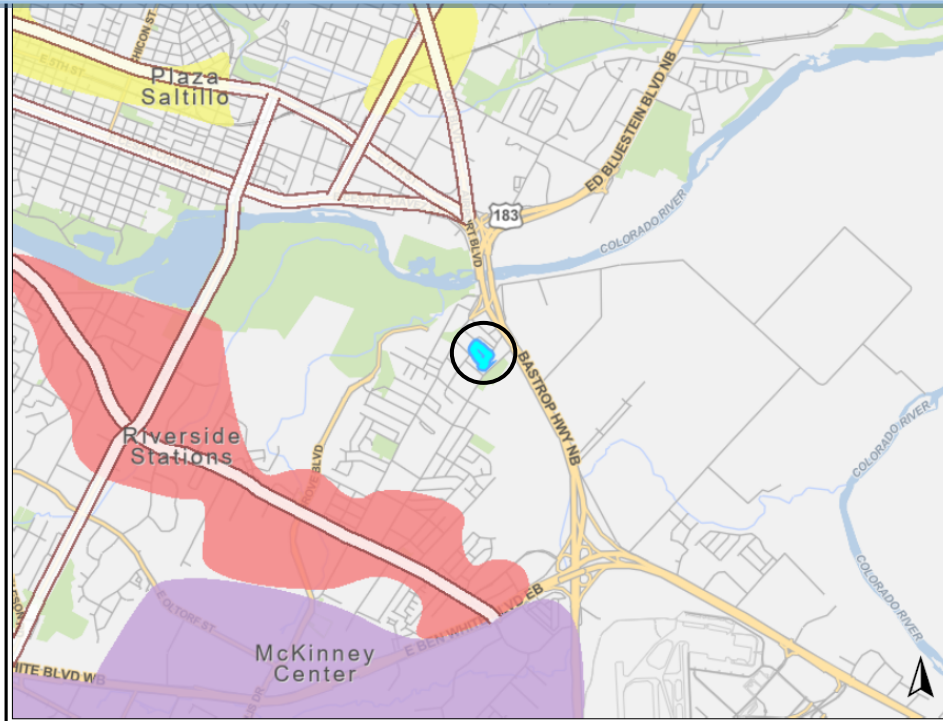

1. Preserve existing multifamily and affordable housing;
2. Maintain and create affordable, safe, and well-managed rental housing; and
3. Make it possible for existing residents, both homeowners and renters, to continue to live in their neighborhoods.
4. Applied to existing or proposed mobile home parks.

#### **Application**

1. Existing apartments should be designated as multifamily unless designated as mixed use;
2. Existing multifamily-zoned land should not be recommended for a less intense land use category, unless based on sound planning principles; and
3. Changing other land uses to multifamily should be encouraged on a case-by-case basis.

## IMAGINE AUSTIN GROWTH CONCEPT MAP

### Definitions

**Neighborhood Centers** - The smallest and least intense of the three mixed-use centers are neighborhood centers. As with the regional and town centers, neighborhood centers are walkable, bikable, and supported by transit. The greatest density of people and activities in neighborhood centers will likely be concentrated on several blocks or around one or two intersections. However, depending on localized conditions, different neighborhood centers can be very different places. If a neighborhood center is designated on an existing commercial area, such as a shopping center or mall, it could represent redevelopment or the addition of housing. A new neighborhood center may be focused on a dense, mixed-use core surrounded by a mix of housing. In other instances, new or redevelopment may occur incrementally and concentrate people and activities along several blocks or around one or two intersections. Neighborhood centers will be more locally focused than either a regional or a town center. Businesses and services—grocery and department stores, doctors and dentists, shops, branch libraries, dry cleaners, hair salons, schools, restaurants, and other small and local businesses—will generally serve the center and surrounding neighborhoods.

**Town Centers** - Although less intense than regional centers, town centers are also where many people will live and work. Town centers will have large and small employers, although

fewer than in regional centers. These employers will have regional customer and employee bases, and provide goods and services for the center as well as the surrounding areas. The buildings found in a town center will range in size from one-to three-story houses, duplexes, townhouses, and rowhouses, to low-to midrise apartments, mixed use buildings, and office buildings. These centers will also be important hubs in the transit system.

**Regional Centers** - Regional centers are the most urban places in the region. These centers are and will become the retail, cultural, recreational, and entertainment destinations for Central Texas. These are the places where the greatest density of people and jobs and the tallest buildings in the region will be located. Housing in regional centers will mostly consist of low to high-rise apartments, mixed use buildings, row houses, and townhouses. However, other housing types, such as single-family units, may be included depending on the location and character of the center. The densities, buildings heights, and overall character of a center will depend on its location.

**Activity Centers for Redevelopment in Sensitive Environmental Areas** - Five centers are located over the recharge or contributing zones of the Barton Springs Zone of the Edwards Aquifer or within water-supply watersheds. These centers are located on already developed areas and, in some instances, provide opportunities to address long-standing water quality issues and provide walkable areas in and near existing neighborhoods. State-of-the-art development practices will be required of any redevelopment to improve stormwater retention and the water quality flowing into the aquifer or other drinking water sources. These centers should also be carefully evaluated to fit within their infrastructural and environmental context.

**Job Centers** - Job centers accommodate those businesses not well-suited for residential or environmentally- sensitive areas. These centers take advantage of existing transportation infrastructure such as arterial roadways, freeways, or the Austin-Bergstrom International airport. Job centers will mostly contain office parks, manufacturing, warehouses, logistics, and other businesses with similar demands and operating characteristics. They should nevertheless become more pedestrian and bicycle friendly, in part by better accommodating services for the people who work in those centers. While many of these centers are currently best served by car, the growth Concept map offers transportation choices such as light rail and bus rapid transit to increase commuter options.

**Corridors** - Activity corridors have a dual nature. They are the connections that link activity centers and other key destinations to one another and allow people to travel throughout the city and region by bicycle, transit, or automobile. Corridors are also characterized by a variety of activities and types of buildings located along the roadway — shopping, restaurants and cafés, parks, schools, single-family houses, apartments, public buildings, houses of worship, mixed-use buildings, and offices. Along many corridors, there will be both large and small redevelopment sites. These redevelopment opportunities may be continuous along stretches of the corridor. There may also be a series of small neighborhood centers, connected by the roadway. Other corridors may have fewer redevelopment opportunities, but already have a mixture of uses, and could provide critical transportation connections. As a corridor evolves, sites that do not redevelop may transition from one use to

another, such as a service station becoming a restaurant or a large retail space being divided into several storefronts. To improve mobility along an activity corridor, new and redevelopment should reduce per capita car use and increase walking, bicycling, and transit use. Intensity of land use should correspond to the availability of quality transit, public space, and walkable destinations. Site design should use building arrangement and open space to reduce walking distance to transit and destinations, achieve safety and comfort, and draw people outdoors.

**BACKGROUND:** The plan amendment application was filed on June 3, 2024.

The applicant proposes to change the future land use map (FLUM) from Single Family to Multifamily Residential for approximately 57 one- to two-bedroom dwelling units.

The applicant proposes to change the zoning on the property from SF-6-NP (Townhouse Condominium Residential district – Neighborhood Plan) to MF-2-NP (Multifamily Residence Low Density district – Neighborhood Plan). For more information on the zoning case, see case report C14-2024-0099.

**PUBLIC MEETINGS:** The ordinance-required community meeting was virtually held on August 26, 2024. The recorded community meeting can be found here: <https://publicinput.com/neighborhoodplanamendmentcases>. Approximately 226 community meeting was mailed to utility account holders and property owners within 500 feet of the property in addition to neighborhood and environmental groups who requested notification for the area. Two city staff members attended the meeting from the Planning Department, Maureen Meredith and Mark Walters. Victoria Haase from Thrower Design, LLC, the applicant's agent attended. No one from the neighborhood attended the meeting.

Below are highlights from Victoria Haase's presentation:

- We are asking for a plan amendment and rezoning on 2.89 acres.
- The property is undeveloped with frontage on Saxon Lane.
- There is existing public transportation near the property
- We are asking for a FLUM change to Multifamily Residential and a zoning change to MF-2-NP.
- We represented the property owner when the property was rezoned to SF-6-NP, but now the owner would like to build a multifamily development.
- Approximately 36 dwelling units could be built under SF-6-NP. Under the proposed MF-2-NP the approximately 57 dwelling units could be built near existing transit.

## Applicant Summary Letter from Application

May 18, 2024

Ms. Lauren Middleton-Pratt  
Director, Planning Department  
City of Austin  
1000 E 11<sup>th</sup> Street  
Austin, TX 78702

***Via Electronic Delivery***

Re: Rezoning & Neighborhood Plan Amendment Application – 318 Saxon Lane & 6328 El Mirando St.

Dear Ms. Middleton-Pratt:

On behalf of the Owner(s) of the properties referenced above, we respectfully submit the enclosed Neighborhood Plan Amendment and Rezoning applications. The subject properties are comprised of two TCAD parcels that total 2.893 acres of unplatted land located within Council District 3, represented by Council Member Jose Valesquez and are within the Montopolis Neighborhood Planning Area.

The lots have a combination "Single Family" Future Land Use designation, and SF6-NP zoning established per Ord. No. 20201210-069. The request is to amend the FLUM to *Multifamily* for both parcels and to rezone the properties to *MF-2-NP* zoning to allow opportunity for a greater number and variety of residential uses housing types.

The subject tracts are located in between Montopolis Drive and Vargas Lane, both Imagine Austin Activity Corridors, and are completely surrounded by either LR-NP or GR-NP zoned land. Both Montopolis Drive and Vargas Lane have CapMetro bus service with stops within ¼ mile. The property is undeveloped and therefore not displacing residents. This location is well suited for placing a greater number of homes and people near transit, park facilities, school and various community resources for all ages.

A rezoning to increase density at this location will bring development that aligns with the goals of increasing housing in proximity to transit, resulting in a more sustainable Austin now and for generations to come. As such, we respectfully request Staff's support.

Please contact our office or me directly should you have need for additional information. Thank you for your time and attention to this application.

**Subject:** Montopolis Contact Team Postponement Request on Saxon Acres 2

External Email - Exercise Caution

Dear Councilman Velasquez- The Montopolis Neighborhood Plan Contact Team is requesting a **postponement for Saxon Acres 2 (NPA 2024-0005.01 & C14-2024-0099) until November or December 2024.**

**In 2020 the Saxon Acres zoning case was approved by City Council.** The property went from SF-3 to SF-6 (C14-2020-0044). It has been four (4) years, and no dirt has been moved and there has been no development on the property. Therefore, we feel it is reasonable to request a postponement on this zoning case. At the current time Ron Thrower Design is requesting a zoning change from SF-6-NP to Multi-Family.

The Montopolis Neighborhood Contact Team met with Ron Thrower Design and his representative on Monday, October 7th. The Montopolis Contact Team needs more time to discuss a Community Benefits Agreement. Also, Contact Team members had numerous questions that could not be answered at the meeting, for example: 1) How many units will be built and the breakdown on the unit sizes (efficiencies, 1 or 2 bedrooms etc.), 2) What will be the levels of affordability?, 3) Exit & entrance to apartments?, 4) Impact and consequences of development on land that is currently at zero percent impervious cover)?

Again, the Montopolis Neighborhood Plan Contact Team request a postponement on the above zoning case until November or December 2024.

Thank you,

Susana Almanza, President MNPCT

**Subject:** Postponement request-NPA 2024-0005.01 & C14-2024-0099

Dear Mrs Hadri.

The Montopolis Neighborhood Plan Contact Team is requesting a postponement for cases NPA 2024-0005.01 & C14-2024-0099, known as Saxon 2 until February 2025.

The Montopolis Neighborhood Contact Team met with Ron Thrower Design and his representative on Monday, October 7th. Contact Team members had numerous questions that could not be answered at the meeting, for example: 1) How many units will be built and the breakdown on the unit sizes (efficiencies, 1 or 2 bedrooms etc.), 2) What will be the levels of affordability?, 3) Exit & entrance to apartments?, 4) Impact and consequences of development on land that is currently at zero percent impervious cover)?

We have not received answers to these very important questions.

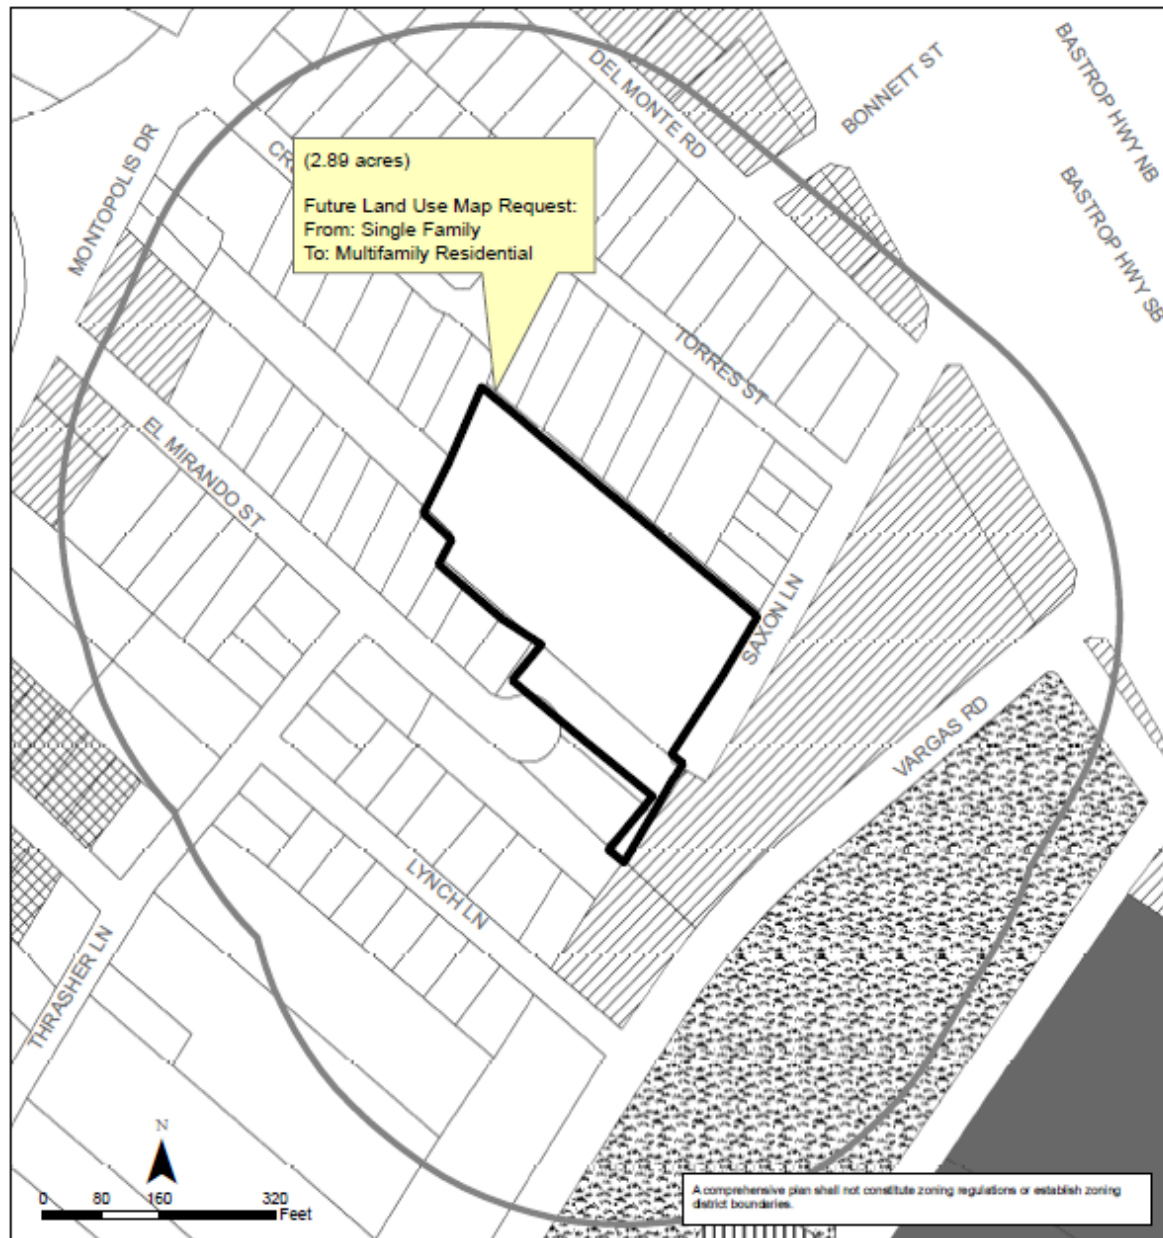

Again, the Montopolis Neighborhood Plan Contact Team requests a postponement on the above zoning case until February 2025.

Thank you,

Noé Elias, MNPCT
