

Siegel Amendment 1

Item 17

Motion to Amend Item 17

Council Member Siegel moves to amend the Draft Resolution for Item #17 on the August 12, 2026 City Council agenda, as follows:

Add to page 1, line 20, after the completed sentence: “The City Manager shall not consider acquisition of any camera or drone system that depends upon artificial intelligence to conduct surveillance or analysis.”

Rationale:

The use of artificial intelligence in surveillance presents serious risks to privacy, liberty, and due process and should be avoided in our City's park system.
