

City of Austin

Recommendation for Action

File #: 25-0912, **Agenda Item #:** 37.

6/5/2025

Posting Language

Authorize an amendment to a contract for continued Imperva software support for all City Departments with Kudelski Security, Inc., to increase the amount by \$605,000 for a revised total contract amount not to exceed \$1,605,000. Funding: \$360,000 is available in the Operating Budget of Information Security Office and \$145,000 is available in the Operating Budget of the Department of Aviation.

Lead Department

Financial Services Department.

Client Department(s)

All City Departments.

Fiscal Note

Funding in the amount of \$360,000 is available in the Fiscal Year 2024-2025 Operating Budget of Information Security Office.

Funding in the amount of \$145,000 is available in the Fiscal Year 2024-2025 Operating Budget of the Department of Aviation.

Funding for the remaining contract term is contingent upon available funding in future budgets.

Purchasing Language:

Contract Amendment.

MBE/WBE:

This contract was reviewed for subcontracting opportunities in accordance with City Code Chapter 2-9C (Minority Owned and Women Owned Business Enterprise Procurement Program). For the services required for this procurement, there were no subcontracting opportunities; therefore, no subcontracting goals were established.

Prior Council Action:

October 19, 2023 - Council approved a contract for Imperva software support with Kudelski Security, Inc.

For More Information:

Direct questions regarding this Recommendation for Council Action to the Financial Services Department - Central Procurement at FSDCentralProcurementRCAs@austintexas.gov or 512-974-2500.

Additional Backup Information:

The contract amendment is for continued and expanded Imperva software support. Currently, the City's Information Security Office operates security services to defend and protect the City's internet-facing digital

properties. The Imperva FlexProtect service prevents disruption of essential City services caused by malicious internet-based actors attacking City networks and services.

Additional funding is needed for expansion of the software support for the Austin-Bergstrom International Airport.

If this amendment is not approved, it will weaken the City's systems, potentially making them vulnerable to attacks.
