RE: Item 50 – 2024-128390 LM Right-of-Way Vacation

Dear Mayor Watson and City Council Members,

Thank you for your tireless leadership. I very much appreciate your work in support of a thriving community for all Austinites.

I request your support, as I – and OWANA - strongly oppose the proposed vacation of Sayers Street initiated by Anchor Equities and scheduled for the May 8th hearing. The proposal has already received unanimous opposition from the Urban Transportation Commission and was formally denied by the Transportation and Public Works Department.

I've walked the area, studied the maps, and learned about the great development proposal, which will enhance the Old West Austin Neighborhood. While benefiting all Austinites – and visitors - who drive on west 6<sup>th</sup> street and will spend time shopping, dining, and creating positive social bonds as the proposed project comes to live.

The Old West Austin Neighborhood Association (OWANA), along with the owners of 503 and 505 Walsh Street, firmly support Sayers Street remaining open. This corridor is essential for pedestrian safety, service vehicle access, and future development viability. It provides critical infrastructure support - trash collection, deliveries, and transformer placement - while keeping such functions off pedestrian friendly streets.

District 9 Council Member Qadri supports the UTC and staff recommendations to keep Walsh Street open based on the facts of this case, including that the area property owners were not in agreement.

Sayers Street is also vital for businesses at 503 and 505 Walsh, whose operations had relied on large delivery vehicles that cannot access the properties from Walsh due to topography. Claims that the street is used only by retail customers are demonstrably false. Additionally, the planned "Sixth and Walsh" mixed-use development, which includes 25 affordable housing units, depends on continued public access to Sayers Street for utilities, loading, and garage access. Vacating the street would stall the project and increase traffic congestion on Walsh Street.

We are concerned that Anchor Equities, which owns adjacent parcels, is seeking to privatize Sayers forfeiture development.

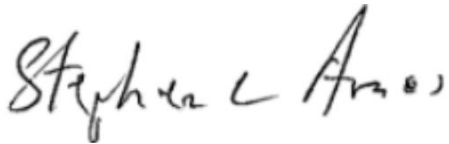

Despite claims of no immediate redevelopment plans, such intentions seem inconsistent with ongoing development activity in the area. The petition for vacation identifies **only** the portion of Sayers Street that runs **east and west**, not the portion that runs north and south. Anchor Equities seeks inverse condemnation for personal gain at the expense of other owners not having access to the street.

**This proposed vacation serves private interests at the cost of public utility, safety, and neighborhood integrity.**

The City of Austin Transportation Code also requires unanimous consent from adjacent property owners - 503 and 505 Walsh were neither consulted nor supportive.

I urge you to reject this application in the interest of maintaining vital infrastructure, supporting affordable housing, and preserving a walkable, vibrant West Austin.

Sincerely,

Chair of the Old West Austin Neighborhood Association (OWANA) Steering Committee
