### **Council Committee, Boards and Commission Action:**

January 14, 2026 - Recommended by the Water and Wastewater Commission on a 10-0 vote with Commissioner Penn absent.

### **Additional Backup Information:**

The contract will provide the City with original equipment manufacturer (OEM) parts and repair services for IBAK equipment. It aims to expedite repairs of crucial closed-circuit television inspection equipment used for inspecting and investigating Austin Water's entire sanitary sewer collections systems. This will help reduce sanitary sewer overflows and service interruptions.

Industrial Disposal Supply Co is the sole authorized dealer for IBAK equipment parts and services in Texas.

This contract replaces a contract that expired October 10, 2025, as the previous vendor lost their exclusive rights to sell and repair IBAK equipment. The requested authorization amount for this new contract was determined based on departmental estimates, historical spending, and a modest annual increase to account for an expected rise in repairs due to aging equipment.

A delay in contract approval could impact maintenance of the collection system, risking failures in the sanitary sewer collection system.

**Contract Details:**

Contract Term	Length of Term	Contract Authorization

Optional Extension 1	1 year	\$103,183
Optional Extension 2	1 year	\$103,183
<b>Total</b>	<b>5 years</b>	<b>\$515,915</b>

**Note:** Contract Authorization amounts are based on the City's estimated annual usage.
