Additional Backup Information:

The City's Cemeteries Division and Austin Community College (ACC) would like to partner to offer a unique opportunity for students currently enrolled in ACC's welding program. Many of the historic iron fencing surrounding family lots at Oakwood Cemetery have gone missing, suffered damage, or deteriorated over the years due to the passage of time and exposure to the elements. Pursuant to the interlocal agreement, ACC welding students, supervised by an experienced instructor, will engage in a meaningful project to restore these fences, resulting in benefits to both the students and the City.
