Dear Mayor Watson and City Council Members,

RE: Item 50 – 2024-128390 LM Right-of-Way Vacation

We write to express our strong opposition to the proposed vacation of Sayers Street (Right-of-Way Vacation Application 2024-128390 LM). This proposal, initiated by Anchor Equities, is scheduled to be heard by the City Council on May 8th, despite earlier unanimous opposition from the Urban Transportation Commission and a formal denial by Director Mendoza of the Transportation and Public Works Department.

The Old West Austin Neighborhood Association (OWANA), alongside Walsh Ventures 2, LLC - owners of 503 and 505 Walsh Street - firmly supports Sayers Street remaining open for public use. This vital corridor plays a critical role in pedestrian safety, service vehicle access, and future development in the area.

District 9 Council Member Qadri supports the UTC and staff recommendations based on the facts of this case, including that the area property owners were not in agreement.

Sayers Street enables safe and efficient back-of-house functions such as trash collection, delivery access, and transformer placement - keeping them off pedestrian friendly streets like West Sixth and Walsh. Its strategic connection to West Fifth offers a practical route for large service vehicles, avoiding unsafe turns and congestion on narrower streets such as Walsh.

The businesses at 503 and 505 Walsh had relied on Sayers Street for daily operations, including the regular delivery of goods via tractor-trailer. Due to topographical constraints, these trucks cannot access the properties from Walsh Street. The claim in the application that the street is used only by customers of nearby retail shops is demonstrably false.

Furthermore, the proposed “6th and Walsh” mixed-use development - already submitted for permitting - includes 25 affordable housing units and assumes continued public access to Sayers Street. The development’s site plan relies on Sayers for sewer access, transformer placement, loading areas, and garage access. Closure of the street would not only block necessary access but also stall the development and increase traffic congestion on an already narrow Walsh Street.

We are concerned that Anchor Equities, which owns adjacent property on both sides of the portion of Sayers in question, seeks to privatize the street to consolidate land for future development. While the applicant has claimed they have no near-term plans to redevelop, such a statement seems inconsistent with current development trends and lacks credibility.

The petition for vacation identifies **only** the portion of Sayers Street that runs **east and west**, not the portion that runs north and south. Anchor Equities seeks inverse condemnation for personal gain at the expense of other owners not having access to the street. The City’s own Transportation Code requires unanimous consent from abutting property owners, yet the owners of 503 and 505 Walsh were neither consulted nor supportive of the petition.

We urge the City Council to uphold the public interest and reject the application to vacate Sayers Street. Doing so will preserve a critical street for community access, ensure the success of much-needed affordable housing, and support a walkable, vibrant West Austin.

Thank you for your time and consideration.

Stephen L. Amos, Chair  
Old West Austin Neighborhood Association

Subject: Item 50: 2024-128390 LM Right-of-Way Vacation

Dear Mayor Watson and City Council Members:

I strongly oppose the proposed vacation of Sayers Street initiated by Anchor Equities and scheduled for the May 8th hearing. The proposal has already received unanimous opposition from the Urban Transportation Commission and was formally denied by the Transportation and Public Works Department. I live in a multi-family housing development located on a block bounded by W. 6<sup>th</sup>, W. 5<sup>th</sup>, Oakland, and Pressler Streets, in close proximity to Sayers Street. The proposed closure would adversely impact my community experience.

The Old West Austin Neighborhood Association (OWANA), along with the owners of 503 and 505 Walsh Street, firmly support Sayers Street remaining open. This corridor is essential for pedestrian safety, service vehicle access, and future development viability. It provides critical infrastructure support - trash collection, deliveries, and transformer placement - while keeping such functions off pedestrian friendly streets.

District 9 Council Member Qadri supports the UTC and staff recommendations to keep Walsh Street open based on the facts of this case, including that the area property owners were not in agreement.

Sayers Street is also vital for businesses at 503 and 505 Walsh, whose operations had relied on large delivery vehicles that cannot access the properties from Walsh due to topography. Claims that the street is used only by retail customers are demonstrably false. Additionally, the planned "Sixth and Walsh" mixed-use development, which includes 25 affordable housing units, depends on continued public access to Sayers Street for utilities, loading, and garage access. Vacating the street would stall the project and increase traffic congestion on Walsh Street.

## Evelyn M. Fujimoto

We are concerned that Anchor Equities, which owns adjacent parcels, is seeking to privatize Sayers for future development. Despite claims of no immediate redevelopment plans, such intentions seem inconsistent with ongoing development activity in the area. The petition for vacation identifies **only** the portion of Sayers Street that runs **east and west**, not the portion that runs north and south. Anchor Equities seeks inverse condemnation for personal gain at the expense of other owners not having access to the street.

This proposed vacation serves private interests at the cost of public utility, safety, and neighborhood integrity. The City of Austin Transportation Code also requires unanimous consent from adjacent property owners - 503 and 505 Walsh were neither consulted nor supportive.

I urge you to reject this application in the interest of maintaining vital infrastructure, supporting affordable housing, and preserving a walkable, vibrant West Austin.

Sincerely,

Evelyn Fujimoto

I support keeping Sayers St. open. Item # 50 — 2024— 128390LM

It's preposterous that the City of Austin would even consider closing this street, which provides access to neighbors and businesses. Old West Austin is full of little streets like this, built a century ago before cars and big urban developments ruled. Street grids reflect that, not But these neighborhood streets are no less important to those who live nearby, park, walk and drive them.

I live nearby. Several businesses are serviced by Sayers St. They are back there, minding their own businesses, working for a living. Why would you close their only access road to favor potential future development?

Sincerely,

Mayor Watson and City Council Members  
Austin City Council, City Hall, Council Chamber

RE: Item 50 – 2024 128390 LM Right of Way Vacation

Dear Mayor Watson and City Council Members,

We are writing to you today as property owners in Old West Austin regarding Agenda item 50 on the May 8th City Council hearing. We respectfully request that you register our emphatic opposition to the proposed closing / vacation of Sayers St. which was initiated by Anchor Equities. The proposed vacation of Sayers St. previously received a unanimous opposition vote by the City of Austin Urban Transportation Commission (UTC). Additionally, this proposal was formally denied by the City of Austin Transportation and Public Works Department.

Old West Austin Neighborhood Association (OWANA), in conjunction with the owners of 503 and 505 Walsh St., strongly support Sayers St. remaining open. Sayers St. is absolutely vital to the continuation of pedestrian safety and security as well as for service vehicle access, and the viability of any future development. Sayers St. provides essential infrastructure support such as trash collection, deliveries, and transformer placement all while keeping the same functions *off* pedestrian friendly streets.

You may already be aware that District 9 Council Member Qadri strongly supports the UTC and staff recommendations to keep Walsh St. open based on the well established facts of this case, including the fact that the area property owners were not in agreement.

Sayers St. is also vital for businesses at 503 and 505 Walsh. These business' operations rely on large delivery vehicles that cannot access the properties from Walsh due to the existing topography. We'd respectfully submit to you that any claims that the street is used only by retail customers are demonstrably false.

Finally, the planned “Sixth and Walsh” mixed use development, which includes 25 affordable housing units, depends on continued public access to Sayers St. for utilities, loading, and garage access. Vacating the street would delay the project and increase traffic congestion on Walsh St..

We’re seriously concerned that Anchor Equities, which owns adjacent parcels, seeks to privatize Sayers St. for future development. Despite their claims of “no immediate redevelopment plans,” such intentions are inconsistent with ongoing development activity in the area. The petition for vacation identifies **only** the portion of Sayers St. that runs **east and west**, not the portion that runs north and south. Anchor Equities seeks inverse condemnation for personal gain at the expense of other owners who would lose access to the street.

This proposed vacation serves private interests at the cost of public safety, utility, and the broad integrity of the neighborhood. As you know, the City of Austin Transportation Code also requires unanimous consent from adjacent property owners. **To this point, 503 and 505 Walsh were neither consulted nor supportive.**

Do the right thing. Reject this application in the interest of maintaining vital infrastructure, supporting affordable housing, and preserving a walkable, vibrant West Austin. These are, after all, among the most precious features greater Austin values and wishes to preserve.

Thank you for your consideration.

Respectfully,

Dear Mayor Watson and City Council Members,

I strongly oppose the proposed vacation of Sayers Street initiated by Anchor Equities and scheduled for the May 8th hearing. The proposal has already received unanimous opposition from the Urban Transportation Commission and was formally denied by the Transportation and Public Works Department.

The Old West Austin Neighborhood Association (OWANA), along with the owners of 503 and 505 Walsh Street, firmly support Sayers Street remaining open. This corridor is essential for pedestrian safety, service vehicle access, and future development viability. It provides critical infrastructure support - trash collection, deliveries, and transformer placement - while keeping such functions off pedestrian friendly streets.

District 9 Council Member Qadri supports the UTC and staff recommendations to keep Walsh Street open based on the facts of this case, including that the area property owners were not in agreement.

Sayers Street is also vital for businesses at 503 and 505 Walsh, whose operations had relied on large delivery vehicles that cannot access the properties from Walsh due to topography. Claims that the street is used only by retail customers are demonstrably false. Additionally, the planned "Sixth and Walsh" mixed-use development, which includes 25 affordable housing units, depends on continued public access to Sayers Street for utilities, loading, and garage access. Vacating the street would stall the project and increase traffic congestion on Walsh Street.

We are concerned that Anchor Equities, which owns adjacent parcels, is seeking to privatize Sayers for future development. Despite claims of no immediate redevelopment plans, such intentions seem inconsistent with ongoing development activity in the area. The petition for vacation identifies **only** the portion of Sayers Street that runs **east and west**, not the portion that runs north and south. Anchor Equities seeks inverse condemnation for personal gain at the expense of other owners not having access to the street.

This proposed vacation serves private interests at the cost of public utility, safety, and neighborhood integrity. The City of Austin Transportation Code also requires unanimous consent from adjacent property owners - 503 and 505 Walsh were neither consulted nor supportive.

I urge you to reject this application in the interest of maintaining vital infrastructure, supporting affordable housing, and preserving a walkable, vibrant West Austin.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Banghart". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
