CITY COUNCIL ACTION:

July 24, 2025:

ORDINANCE NUMBER:

ISSUES:

*On April 30, 2025, the applicant amended their request from community commercial (GR) district zoning to community commercial – conditional overlay (GR-CO) combined district zoning.

CASE MANAGER COMMENTS:

The property in question is approximately 0.37 acres, developed with one commercial building, is on Menchaca Road (level 3), and is currently interim - single-family residence standard lot (I-SF-2). The property has commercial and retail uses (I-SF-2, CS-CO and MF-4) to the north, south and west. There are also single family residences (ETJ) to the east and undeveloped properties (MF-4 and GR) to the west. ***Please refer to Exhibits A (Zoning Map) and B (Aerial View).***

Staff is recommending the community commercial – conditional overlay (GR-CO) combined district zoning for the property. There is no demolition proposed for the property, the applicant is intending to keep the current retail and personal service uses on the property.

BASIS OF RECOMMENDATION:

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

The community commercial district is intended for office and commercial uses serving neighborhood and community needs, including both unified shopping centers and individually developed commercial sites, and typically requiring locations accessible from major traffic ways.

The conditional overlay combining district may be applied in combination with any base district. The district is intended to provide flexible and adaptable use or site development regulations by requiring standards tailored to individual properties.

2. *Zoning should allow for reasonable use of the property.*

Staff recommends the applicant's request because the lot meets the intent of the GR district as this rezoning would be an individually developed commercial site with commercial uses serving the neighborhood and community. The applicant is looking to continue the use of their existing commercial businesses with the rezoning.
