Lead Department

Austin Financial Services.

Managing Department

Austin Capital Delivery Services.

Fiscal Note

Funding in the amount of \$4,286,648 is available in the Capital Budget of Austin Watershed Protection.

Funding in the amount of \$1,298,470 is available in the Capital Budget of Austin Water.

Procurement Language:

Austin Financial Services issued an Invitation for Bids solicitation IFB 6100 CLMC1111A for these services. The solicitation was issued on February 16, 2026, and closed on March 26, 2026. The bids submitted by the recommended contractors were the lowest of the seven responsive bids received. A complete solicitation package, including a tabulation of the bids received, is available for viewing on the City's website. This information can currently be found at https://financeonline.austintexas.gov/afo/account_services/solicitation/solicitation_details.cfm?sid=143615.

MBE / WBE:

This contract will be awarded in compliance with City Code Chapter 2-9A (Minority-Owned and Women-Owned Business Enterprise Procurement Program) by meeting the goals with 9.09% MBE and 4.16% WBE participation.

For More Information:

Direct questions regarding this Recommendation for Council Action to Austin Financial Services - Central Procurement at FSDCentralProcurementRCAs@austintexas.gov or 512-974-2500. Respondents to the solicitation and their Agents should direct all questions to the Authorized Contact Person identified in the solicitation.

Additional Backup Information:

The Williamson Creek - Richmond Tributary Rehabilitation project will address the ongoing erosion in the Richmond Tributary to Williamson Creek. The ongoing erosion of the stream banks and bed is putting nearby residential properties and public infrastructure, including utilities and roadways, at risk.

This stream restoration project includes construction of approximately 1,800 linear feet of limestone boulder retaining walls for bank stabilization; installation of large rock riprap for channel stabilization; improvement of two culverts; bank revegetation; and relocation and improvement of water and wastewater lines and service connections.

Due to the potential for unknown subsurface conditions and challenges of working in a natural waterway, a 10% contingency in funding has been included to allow for the expeditious processing of any change orders to cover any unforeseen construction costs associated with the project.

The project proposes lane closures and detours. The contractor will work to ensure that residents and businesses always have access to their driveways. If access cannot be maintained, written notice of limited access will be provided to the affected property owner(s) at least 24 hours in advance.

A delay in contract approval would result in worsening of erosion conditions increasing the risk to residential properties and public infrastructure.

The contract allows 608 calendar days for completion of this project.

This project is located within zip code 78745 (District 5).
