Recommendation for Action

File #: 26-2043, **Agenda Item #:** 50.

7/23/2026

Posting Language

Authorize an amendment to a contract for continued employee exams and associated medical testing with Capital Area Occupational Medicine d/b/a St. David's Occupational Health Services, to increase the amount by \$80,000 for a revised total contract amount not to exceed \$460,000. Funding: \$80,000 is available in the Operating Budget Special Revenue Fund of Austin Fire. Funding for the remaining contract term is contingent upon available funding in future budgets.

Lead Department

Austin Financial Services.

Client Department(s)

Austin Fire.

Fiscal Note

Funding in the amount of \$80,000 is available in the Fiscal Year 2025-2026 Operating Budget Special Revenue Fund of Austin Fire.

Funding for the remaining contract term is contingent upon available funding in future budgets.

Procurement Language:

Contract Amendment.

MBE/WBE:

This contract was reviewed for subcontracting opportunities in accordance with City Code Chapter 2-9C (Minority-Owned and Women-Owned Business Enterprise Procurement Program). For the services required for this contract, there were no subcontracting opportunities; therefore, no subcontracting goals were established.

For More Information:

Direct questions regarding this Recommendation for Council Action to the Austin Financial Services - Central Procurement at: FSDCentralProcurementRCAs@austintexas.gov or 512-974-2500.

Additional Backup Information:

The contract provides employee exams and associated medical testing. These services include physical examinations, cadet medical screening, return-to-duty evaluations, cardiology services, chest x-ray and interpretation services for calcium scores for Austin Fire, Austin - Travis County Emergency Medical, Austin Police, and Austin Watershed Protection. These services augment the Public Safety Wellness program.

Austin Fire was awarded the Assistance to Firefighters Grant from the Department of Homeland Security. The purpose of this grant is to protect the health and safety of firefighting personnel. The objective is to provide coronary artery calcium (CAC) scans for firefighters 40 or more years of age. The CAC scans will help identify firefighters at risk for cardiovascular disease during their annual medical evaluations. According to the

Occupational Safety and Health Administration, sudden cardiac deaths remain the leading cause of line of duty deaths. Providing these services will enable the Public Safety Wellness Center to adhere to the mission of empowering first responders to lifelong wellness. The additional testing will allow Public Safety Wellness Center to improve early detection and prevention of cardiovascular disease.

Contract Details:
