

RESOLUTION NO.

WHEREAS, the City's emergency communication operations are challenging, due in part to the extensive intergovernmental and interagency cooperation required to execute such functions in a City which spans multiple counties and criminal jurisdictions; and

WHEREAS, the 2019 Dispatch Equity and Optimization Study identified substantial inefficiencies, including challenges with collaboration across departments and outdated and needlessly segregated computer systems; and

WHEREAS, the joint operation and management of emergency communications functions is successfully preceded in Texas, most notably in the North Texas Emergency Communications Center, an independent emergency telecommunications center serving the cities of Addison, Carrollton, Coppell, and Farmers Branch; and

WHEREAS, slow emergency response times have caused residents in outlying areas like District 6, which crosses multiple jurisdictions and agencies, to experience real-world impacts where response times do not meet stated goals; and

WHEREAS, embedding mental health experts or crisis line clinicians directly into emergency communications centers has been shown in other cities to resolve thousands of low-risk crises on scene, free up thousands of dispatch and police hours, and save significant taxpayer money; and

WHEREAS, the City of Austin should explore all avenues to provide excellent service and response times for Austin residents while minimizing strain on public safety employees, allowing sworn first responders to focus on emergencies rather than administrative tasks; and

25 **WHEREAS**, establishing a dedicated civilian infrastructure supporting
26 administrative tasks and hiring a civilian to manage civilian call-takers addresses
27 the core operational, legal, and structural needs of the center; and

28 **WHEREAS**, emergency communication centers should be an equal,
29 independent branch of the public safety system to ensure unbiased, proactive
30 leadership and technological agility; and

31 **WHEREAS**, on August 13, 2025, City Council unanimously adopted
32 Resolution No. 20250813-018, directing the City Manager to “consult with all
33 relevant external stakeholders, including employee unions, intergovernmental
34 partners, licensing agencies, and community groups, in developing the strategic
35 plan for the [Joint Emergency Communications Department];” and

36 **WHEREAS**, in response to that Resolution, the City Manager circulated a
37 memorandum on July 29, 2026, which found that the City could establish a new
38 Joint Emergency Communications Department which could implement crucial
39 governance, operational, and technology enhancements that would improve
40 emergency response; **NOW, THEREFORE,**

41 **BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

42 The City Council affirms its dedication to timely, responsive, and
43 technologically agile operations at our emergency communications center,
44 including and especially our 911 call-takers.

45 **BE IT FURTHER RESOLVED:**

46 The City Manager is directed to create an Office of Joint Emergency
47 Communications within the Management Services Department which reports to the
48 Assistant City Manager for Public Safety on the first day of Fiscal Year 2026-
49 2027.

BE IT FURTHER RESOLVED:

The City Manager is directed to hire a ~~Director of Joint Emergency Communications~~civilian senior-executive-level employee – with sufficient knowledge and experience to function as an independent manager of a future full Joint Emergency Communications Department – as soon as feasible to manage the Office of Joint Emergency Communications.

BE IT FURTHER RESOLVED:

~~Beginning in~~ In Fiscal Year 2026-2027, the City Manager, through the Office of Joint Emergency Communications or other means, shall develop a plan to transition to an independent Joint Emergency Communications Department and take begin the necessary administrative and other steps to execute ~~the transition to an independent Joint Emergency Communications Department~~that plan in order to houseing all civilian 911 call-takers and all non-sworn positions ~~which are~~ required to support and/or manage the work of the civilian call-takers, and shall make progress towards completing the transition on a timeline such that the Joint Emergency Communications Department can be created and made fully operational at the earliest ~~possible~~feasible date.

BE IT FURTHER RESOLVED:

The City Manager, through the Office of Joint Emergency Communications or other means, shall present the upcoming consultant report on emergency communications and use the conclusions therein to develop recommendations on how best to implement potential improvements to our emergency communications system, including civilian reporting structures, telephone crime reporting, alternative first response models, coordination with 311, and targeted reverse 911 communication for events requiring phased evacuation measures.

BE IT FURTHER RESOLVED:

Beginning ~~in~~ Fiscal Year 2026-2027, the City Manager, through the Office of Joint Emergency Communications or other means, shall ~~work~~ begin the process of ~~secur~~ing Texas Commission on Law Enforcement (TCOLE) authorization for an independent Joint Emergency Communications Department to function as a public safety communications agency, and shall begin to navigate all other legal, operational, and administrative requirements for the City to create a functioning independent 911 civilian ~~call-center~~department at the earliest ~~possible~~ feasible date.

BE IT FURTHER RESOLVED:

After the City Manager takes the necessary administrative and other steps to create an independent Joint Emergency Communications Department, the City Manager is directed to bring a recommendation to Council at the earliest possible date, including any necessary budget amendments, regarding ~~the~~ creation of an independent Joint Emergency Communications Department to include ~~all~~ civilian 911 call-takers and all non-sworn positions which are required to support and/or manage the work of the civilian call-takers, incorporating ~~training~~, human resources operations, and quality assurance among other functions.

BE IT FURTHER RESOLVED:

The City Manager is directed to report back to Council, the relevant Council committee, or both on the progress towards completing the directions in this Resolution at least once every ~~three months~~quarter until the Joint Emergency Communications Department is fully operational.

BE IT FURTHER RESOLVED:

~~During Fiscal Year 2026-2027,~~ ~~if~~ the City Manager identifies any obstacles that may prevent or significantly delay the timely implementation of the Joint

Emergency Communications Department, the City Manager is directed to notify City Council as soon as possible via briefing or memo and provide potential solutions to the obstacle which maintain the ultimate goal of timely implementation.
