

City of Austin

Recommendation for Action

File #: 26-1991, **Agenda Item #:** 32.

7/23/2026

Posting Language

Authorize an amendment to a contract for continued supervisory control and data acquisition equipment, software installation, and support services for Austin Water with Control Panels USA Inc., to increase the amount by \$1,000,000 for a revised total contract amount not to exceed \$4,200,000. Funding: \$300,000 is available in the Capital Budget of Austin Water. Funding for the remaining contract term is contingent upon available funding in future budgets.

Lead Department

Austin Financial Services.

Client Department(s)

Austin Water.

Fiscal Note

Funding is available in the Capital Budget of Austin Water.

Funding for the remaining contract term is contingent upon available funding in future budgets.

Procurement Language:

Contract Amendment.

MBE/WBE:

This contract was awarded in compliance with the City Code Chapter 2-9B (Minority-Owned and Women-Owned Business Enterprise Procurement Program). For the services required for this solicitation, there were no subcontracting opportunities; therefore, no subcontracting goals were established.

Prior Council Action:

March 21, 2024 - Council approved a contract for supervisory control and data acquisition equipment and software installation and support services with Control Panels USA Inc.

August 28, 2025 - Council approved an amendment for continued supervisory control and data acquisition equipment and software installation and support services with Control Panels USA Inc.

For More Information:

Direct questions regarding this Recommendation for Council Action to Austin Financial Services - Central Procurement at: FSDCentralProcurementRCAs@austintexas.gov or 512-974-2500.

Council Committee, Boards and Commission Action:

July 15, 2026 - Recommended by the Water and Wastewater Commission on an 8-0 vote, with three absences.

Additional Backup Information:

This amendment will provide continued supervisory control and data acquisition (SCADA) equipment, software installation, and support services. Austin Water's mission-critical SCADA systems monitor and control the various water and wastewater facilities, including treatment plants, water distribution pump stations, reservoirs, and wastewater collection lift stations.

Austin Water unexpectedly needs to replace 15 obsolete programmable logic controllers at wastewater facilities, upgrade and automate the controls of aeration blowers at a wastewater treatment plant and install pressure monitoring equipment for the reclaimed water system. These projects are necessary to maintain Austin Water's SCADA systems.

Contract Details:				
Contract Term	Length of Term	Contract Authorization	Requested Additional Authorization	Revised Total Authorization
