

MEMORANDUM

To: Mayor and City Council

Through: Jon Fortune, Deputy City Manager *JF*

From: Carrie Rogers, Government Relations Officer *CR*

Date: December 12, 2025

Subject: **Austin Government Relations / FY27 Congressional Community Project Funding Requests**

The purpose of this memorandum is to inform the Mayor and City Council that the City is initiating the process for the FY27 Congressional Community Project Funding (CPF) cycle. This memorandum provides an overview of the CPF timeline, expected federal processes, and the internal steps Austin Government Relations will lead to coordinate and prepare potential project submissions for Members of Congress. As this process gets underway, City Council offices and departments may wish to begin considering district and citywide needs that align with both City and federal CPF guidelines; however, any suggestions shared at this stage are advisory in nature and do not constitute a commitment to advance or submit a project for federal consideration.

Background

Congressional Community Project Funding (formerly known as “earmarks”) allows Members of Congress to request federal funds for specific, high-impact projects in their districts. FY22 was the first year in a decade that this process was reinstated, and since that time, Austin has successfully secured approximately \$23.6 million in CPF awards.

While the process differs year over year, in past years guidelines generally include the following provisions:

- Each House Member could submit up to 15 CPF requests, prioritizing projects sponsored by units of government and nonprofit organizations (nonprofits were unexpectedly excluded in the FY25 cycle due to a last-minute rule change, underscoring the fluid nature of the process).
- Requests were limited to specific federal accounts (e.g., Community Oriented Policing Services Technology, HUD Economic Development Initiative, Highway Infrastructure Programs).
- Most eligible accounts supported project requests between \$100,000 and \$6 million.
- Each Member typically had a total CPF cap of \$10 million to \$15 million across all submissions.

Date: December 12, 2025
Subject: FY27 Congressional Community Project Funding Requests

- The CPF process remains highly competitive, as the limited number of available requests must cover every governmental entity, public agency, transit authority, college, university, and eligible nonprofit in each congressional district.

While FY27 guidance has not yet been released, prior House deadlines suggest that Member offices may require submissions in mid- to late-March. We will update departments promptly if Congress revises the rules or submission schedules.

Current Federal Context

Congress recently passed a Continuing Resolution (CR), which maintains government funding at FY24 levels and delays decisions on a full federal budget until after January 30, 2026. Because of this, new projects – including potential CPF awards – remain on hold until a full budget is enacted. It is important to note that Congress may choose to extend the CR again, which would push budget decisions further into 2026. While we continue preparing based on prior cycles, the FY27 timelines and requirements may be updated once Congress finalizes the federal budget.

Mayor and City Council Action & Timeline of Events

The Mayor's Office and City Council offices with CPF project ideas to be considered should work with sponsoring City departments to enter project proposals and required details [at this link](#), on **or before**

January 16, 2026. Projects received will be reviewed for alignment with:

- Congressional priorities
- The City's strategic initiatives
- City Council-adopted FY27 budget priorities
- Expected FY27 CPF guidelines

Timeline of Events

- CPF Project Spreadsheet available – **December 8, 2025**
- CPF Overview and Workshop – **December 17, 2025**
- CPF Project Submissions completed by departments – **January 16, 2026**
- CPF Project Reviews completed by AGR – **January 23, 2026.**
- AGR finalize CPF selections – **January 28, 2026**
- CPF Applications Submitted for Appropriations Review – **March 5, 2026**

Austin Government Relations continues to regularly engage with state and federal delegations and funders, and in coordination with City departments and local partners, to advocate for the City's priorities.

Should you have questions or would like to discuss any potential CPF-eligible projects, questions, or departmental needs ahead of the submission deadline, please contact Erika Dzangare, Legislative Deputy Officer over the Grants Division, at Erika.Dzangare@AustinTexas.gov, or Karen Bowers at Karen.Bowers@AustinTexas.gov.
