

## MOTION SHEET

I make a motion that the following language be inserted as the last paragraph in the Austin Water Conservation Plan on page 36, “My ATX Water” section, to read as follows:

“Austin Water will work with the My ATX Water software vendor to develop reporting to identify customers with My ATX Water meters installed who are irrigating outside of the mandatory watering schedule and deliver courtesy notices to those customers. Austin Water will seek to use this system in advance of pursuing the enforcement actions allowed under Article 5 of Austin City Code, Chapter 6-4.”
