Exhibit Use		

Charged at a Daily Rental between the minimum and maximum Daily Rate per show day versus per net square foot of exhibit space utilized. A public address system is available at no charge during event hours. One (1) move-in or move-out is provided at no charge for each event day, not to exceed three (3) days at no charge. All other move-in and move-out days are charged up to half day rental. Requirement: Department concession space per exhibit hall is a thirty by thirty (30x30) area. Additional space is needed for seating.

Food Function (Banquets, Receptions, etc.)

Charged up to the Maximum Daily Rental per show day and includes one head table for four (4), tables and chairs based on available inventory. Up to one (1) move-in/move out day may be provided at no charge for each event day, not to exceed three (3) at no charge. All other move-in and move out days are charged at half day rental.

General Session Use

Daily rental plus up to half the maximum equipment cost for required set-up on first day when used exclusively for a general session. One move-in/move-out day in each EH is at no charge for each show day, not to exceed three days at no charge. All other move-in/move-out at half daily rental.

General Information

Facility Rental Information

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour per space after 12 midnight and before 6AM. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to customers. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy. The Director may negotiate special rates, charges, fees, credits, discounts and services for use of the Department facilities by customers who represent significant local economic impact, repeat business, hotel occupancy tax or substantial facility revenue, to maximize facility revenue during need period or to offset unexpected event challenges. The Director may use industry guidelines to calculate economic benefit. Contracts and contract addendums issued within thirty (30) days of the 1st contract day may be subject to unscheduled labor fees and equipment fees at the base rate. At the Austin Convention Center, all food and beverage is exclusive to the in-house food and beverage management company.

A tiered late fee will apply in late invoice payments:

31-60 days = \$50
 61-90 days = \$150
 91-120 days = \$200

Facility Rentals

Palmer Events Center Facilities

The Director has the discretion to modify facility rental pricing to accommodate for food and beverage spend as well as ancillary revenue.

Exhibit Use

One (1) move-in or move-out is provided at no charge for each two show days. All other move-in and move-out days are charged at one-half (1/2) the Daily Rental. Access to a public address system is provided at no charge during event hours.

General Session Use

Equipment provided at one-half (1/2) of the equipment cost for the required set-up when used exclusively for a General Session. One move-in or move-out day is provided at no charge for each two show days, not to exceed three (3) days at no charge. A public address system is provided at no charge during event hours. A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.

Food Functions (Banquets, Receptions, etc.)

Move-in or move-out days are charged at one-half (1/2) the daily rental, not to exceed the number of show days. A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.

Events Center with exhibit hall 1, daily rental	\$4,700.00 - \$5,400.00
Events Center with exhibit hall 2, daily rental	\$2,800.00 - \$3,400.00
Events Center with exhibit halls 1-2, daily rental	\$7,100.00 - \$8,800.00

General information

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour per space after 12 midnight and before 6AM. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to customers. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.

The Director may negotiate special rates, charges, fees, credits and services for use of the Department facilities by customers who represent significant local economic impact, repeat business, hotel occupancy tax or substantial facility revenue, to maximize facility revenue during need period or to offset unexpected event challenges; provided, however, that the direct dollar impact from all sources must not be below the operating cost of the facility used by customers.

The Director may use industry guidelines to calculate economic benefit. When an outside entity is utilized for food and beverage at the Lester E. Palmer Events Center, equipment and services are charged accordingly. Facility rental does not include equipment. Food and beverage service is exclusive to the in-house food and beverage management company in the Palmer Events Center meeting rooms 1-5.

Short term rental of Palmer Events Center meeting rooms 1-5, without the rental of an exhibit hall, is available within a ninety (90) day window.

All shows will be assessed the appropriate rental fee. Contracts and contract amendments issued within thirty (30) days of the 1st contract day may be assessed unscheduled labor fees and equipment fees at the standard rate.

Requests received from Show Management thirty-one (31) days or more from the first contract day for labor services, security services, equipment, waste management services, audio recording services and utility services will be charged the listed rate (incentive rate). An appropriate discount rate of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day. Changes made within five (5) days of the first contracted day of the event are subject to reset fees. Labor and equipment fees may apply to first room set if room specifications (including setup times and equipment needs) are not received within five (5) days of the first contract day.

Utility Information		
Austin Analytical Services		
Austin Analytical laboratory services can benefit other customers as well as the City of Austin. The laboratory is equipped to provide PCB, lead, asbestos, and other environmental and analytical testing to customers.		
Construction/Installation		
This service consists of pole or tower construction and conduit installation for electric or communications companies.		
Distributed Generation		
This service provides on-site analysis for large industrial or commercial customers to assess opportunities for on-site electrical generation for these customers for peak shaving or emergency outage situations. If circumstances for on-site generation are favorable, Austin Energy may provide or assist customers in obtaining distributed generation equipment. Austin Energy may own, operate, and/or maintain such equipment.		
District Heating and Cooling Service		
Austin Energy may provide district cooling service to customers under long-term service contracts. A contract shall be required to receive service, and Austin Energy may enter into such contracts to the extent system capacity is available. The customer's capacity and consumption charges shall be determined by the utility and imposed to recover connection costs over a period not to exceed fifteen-years; capital costs and a rate of return; fixed and variable operation, maintenance, replacement, power, and administrative costs, both specific to the customer and attributable to the customer's proportionate share of over-all system cost-of-service.

Educational Services		
This service provides information and education on utility and competitive issues such as safety, power quality, planning, and energy services.		
Electric Reliability Council of Texas Wholesale Market Services		
These services may be offered to eligible parties desiring to participate in the Electric Reliability Council of Texas (ERCOT) wholesale market. Austin Energy is currently registered as a Qualified Scheduling Entity in ERCOT and, as such, may provide scheduling, dispatching, communication, and a broad range of other services related to the ERCOT wholesale market.		
Energy Management Services		
Services include energy audits, feasibility studies, cost estimates, project management, providing, installing, and/or maintaining energy-efficient equipment, and arranging for project financing for governmental, commercial, and industrial customers.		
Green Building Program		
The Green Building Program is a voluntary building rating system that encourages environmentally sound building, remodeling, and building maintenance practices. This program includes those services connected with providing "green building" practices: professional consulting, educational and informational "green building" services, and marketing of the same, all connected with providing and promoting environmentally sound building practices and systems ("green building"). Green Building services are available to individuals and business outside the City of Austin's electric service area as well to businesses within the service area boundary.		
Lighting Products and Services		

Austin Energy - Austin Energy Fund**Fee****Note**

This service includes the supply and installation of lights or poles for commercial facilities and residences. Lights and poles may be owned and maintained by the Utility.

Maintenance Contracts for Customer-Owned Medium-Voltage Equipment

This service provides specific maintenance contracts for customers requesting assistance in repairing or providing maintenance on medium-voltage equipment (over 600 volts). A maintenance contract will be prepared for each customer.

Power Quality or Reliability Contracting

This service provides contracts to improve customer power quality or reliability through the sale, lease, installation and maintenance of electrical devices. The final product or service offering will be based on that customer's specific needs.

Pricing Guidelines for Electric Utility Products and Services

The pricing of electric products and services shall be derived from a competition-based pricing strategy. Competition-based pricing, also known as going-rate pricing, shall correlate prices for Austin Energy electric utility products and services to those of competitors for like goods and services in Austin, Texas or similar marketplaces. By including market-based surveys in the pricing process, competition based pricing includes within the pricing calculation the consumer's perception of the value of the product or service. The competition-based prices for products and services shall be selected by combining two standard pricing data sets and using pricing based on marginal cost.

(1) The first pricing data set is the price range between the average lowest and average highest prices of the product or service. This price range shall be determined by researching the prices of the product or service in the current marketplace. Both internal and external market price surveys may be used. This range becomes the competition-based price range as established by competition in the market place.

(2) The second pricing data set is the internally computed marginal cost of the product or service. Marginal cost is calculated by combining the determined total fixed and total variable costs to establish the floor of the profit margin.

(3) The final price of the product or service shall not be offered below the marginal cost of the product or service and must be within the determined competition-based price range.

(4) Calculation of the final price shall assume a product life cycle (to be determined for each product) for the purposes of determining the number of units or amount of service that will be sold.

(5) The final price for a particular product or service shall be a ratio of the sum of the marginal cost and targeted profit to the anticipated number of units to be sold.

Competition-based pricing assumes that the selected price represents the collective pricing wisdom of the electric utility product and service marketplace. It reflects a price that affords a fair profit in a competitive marketplace.

Pulse Metering, Submetering, and Interval Load Data Services

This service provides installation of pulse metering, submetering, or interval load data recorders at a customer's facility, and electronic collection of relevant data from a customer's facility, and provides customers with timely operating data to assist with the efficient operation of its equipment and facility.

Surge Protection

This service provides whole building and point-of-use surge protection from voltage spikes. These products will be suitable for residential and commercial establishments. Customers have the option of choosing either whole building surge protection installed at the meter or high quality surge protection strips for individual or grouped devices, or both.

Fire Hydrant Meter Fees			
<p>Water meters are installed on fire hydrants for construction purposes on a temporary basis. Costs associated with fire hydrant meters include an initiation fee, an installation fee, a non-compliance removal fee, and a refundable equipment deposit for the meter and equipment. The initiation fee covers administrative costs in setting up the account on the billing system. The installation fee covers the field costs for installing the meter on the fire hydrant or on a vehicle for use in withdrawing water from a fire hydrant. Backflow prevention assemblies are required to be installed by the contractor and tested by a certified backflow technician and the test report faxed or delivered to Special Services within 48 hours of the meter installation. The non-compliance removal fee is charged when a fire hydrant meter is removed by the City of Austin due to either an ordinance violation or the contractor failing to have a backflow prevention assembly tested and the test report faxed or delivered to Special Services within the required time period. The meter and equipment deposits are to help insure the return of the meter and equipment upon completion of use by the contractor. The equipment deposit does not earn interest, and will be refunded to the customer upon return of the meter and equipment to the Utility, after verification that the meter and equipment is in good working condition, and verification that the utility billing charges have been paid in full. Charges for damages to the meter or equipment will be deducted from the deposit, if applicable. Refer to City Ordinance No. 20051020-005.</p>

The requirement to inspect, test and maintain private hydrants is in Chapter 25-12 of the Austin City Code as described in § 25-12-172 (Local Amendments to International Fire Code - 508.5.3 Private Fire Service mains and water tanks). This annual inspection, testing and maintenance of PHFs must be done in accordance with the National Fire Protection Association (NFPA) 25 and American Water Works Association (AWWA) Manual M-17, Installation, Field Testing and Maintenance of Fire Hydrants. This annual inspection, testing and maintenance ensures PFHs will operate properly in emergency situations, identifies and helps quantify the amount of water lost due to leaking systems and misuse, and improves the City of Austin's mapping systems, assisting both the AW and the Austin Fire Department (AFD). Fee is per private hydrant and is charged on a monthly basis at 1/12 of the annual fee during the month(s) the customer's account is active.

Fee in lieu of providing an Onsite Water Reuse System (OWRS)			
Per Ordinance No.20230816-007 which states to create a new Reclaimed Water Utility fee in lieu of providing an onsite water reuse system. The fee in lieu of providing an onsite water reuse system is calculated by multiplying the cost per inch-foot of \$43.28 by 500 linear feet and by the pipe diameter in inches.			
The pipe diameter will be calculated in accordance with Austin Water's purple pipe size requirements to connect to Austin Water's centralized reclaimed system based on the usage demands of the proposed project, under the City's Utilities Criteria Manual. The fee for specific pipe diameters is listed below. Other pipe diameters not listed below will be calculated as described in this paragraph.			
Pipe Diameter:			
a. 6-inch:		\$120,480.00	\$129,840.00
\$43.28 per inch/foot 500 linear feet @ \$259.68/linear foot

Austin Water - Austin Water Wastewater Utility Operating Fund**Fee****Note****Utility Charges/Rates****A. Wastewater Service Rates**

For all bills rendered on or after November 1, 2025, these rates are applicable to all service for wastewater treatment to retail customers served by the City of Austin. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge for retail customers will be based on their wastewater average.

Wastewater Service Rates for Retail Customers:**Existing Customers****A. Retail Customers with Water Service**

These rates are applicable to all retail customers who have metered water connections. Wastewater billing is based on the average water usage during the designated three (3) month wastewater averaging period; or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. If there is zero usage for two or all three months of the averaging period, a default wastewater average of 5,000 gallons will be assigned for residential customers until the next wastewater averaging period. For all other retail customers if there is zero usage for two or all three months of the averaging period, the monthly wastewater volume will be based on actual metered water usage monthly until the next wastewater averaging period.

B. Wastewater Billing for Domestic Alternate Water Sources

Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required.

C. Non-Residential Customers with associated Irrigation Meters (Multifamily, Commercial, Large Volume and Wholesale)

For those non-residential customers that have a separate City of Austin irrigation water meter for irrigation or alternative irrigation water source on the property other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base wastewater billing for domestic usage on actual monthly water consumption. Any property that has an irrigation meter requirement will base wastewater billing for domestic usage on actual monthly water consumption.

D. Non-Residential Customers without irrigation needs or requirements on the property

Non-Residential Customers without irrigation needs or requirements on the property will base wastewater billing for domestic usage on actual monthly water consumption.

FY 2025-2026 Fee Schedule

Austin Water - Austin Water Wastewater Utility Operating Fund	Fee	Note
E. Criteria and procedures for existing Commercial customers to qualify as a Large-Volume customer		
<p>An existing commercial customer of Austin Water must purchase more than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Austin Water will annually monitor water consumption to determine if any existing customers have exceeded the 85.0 million gallon level.</p>		
Procedures		
<p>Upon verification of the 85.0 million gallon purchase or consumption requirement in fiscal year one, Austin Water will include this customer as a large volume customer in its next rate setting cycle. The next rate setting cycle is during fiscal year two, and will set rates that are to be effective November 1 of fiscal year three. Austin Water will verify the water consumption in fiscal year two, before the rate change on November 1 of fiscal year three, to determine if the commercial customer has maintained the 85.0 million gallon water consumption level for the second consecutive fiscal year. If the commercial customer maintains the 85.0 million gallon level, the City will change the rates for the commercial customer to the large volume customer rates on November 1 of fiscal year three. The City will bill the commercial customer for water consumption after the November 1 rate change at the new large volume rate. The City will give no credit for water consumption in the qualifying fiscal years before the November 1 rate change. If the customer does not maintain the 85.0 million gallon level in the second fiscal year, the customer will remain at commercial class rates.</p>		
F. Criteria and procedures for existing Large Volume customers with reduced volume		
Criteria		
<p>An existing Large Volume customer of Austin Water purchases less than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Austin Water will annually monitor water consumption for all existing large volume customers to determine whether the minimum 85.0 million gallon level has been met.</p>		
Procedures		
<p>Upon verification of fiscal year water use below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resource Services Division of Austin Water will notify the customer in writing of the shortfall. If the customer falls below the 85.0 million gallon level for a second consecutive year, a second notice will be sent notifying the customer that they will be converted to the commercial class during the November billing cycle of that same year. Once a customer has lost industrial status, the criteria and procedures for an existing commercial customer to qualify as a large volume/industrial customer will be followed. Large volume customers that have implemented Austin Water approved conservation initiatives that causes their water consumption to fall below the 85 million gallons threshold may continue to receive the large volume rate provided that the annual water consumption remains above 65 million gallons and the reduced usage does not create a peaking factor that would be greater than the commercial class peaking factor.</p>		
G. Existing Large Volume Customers with Major Process Changes		
Criteria		
<p>An existing Large-Volume customer of Austin Water who has major process changes (e.g. sells off parts of the company, business changes with lower use projections, etc.) and the original business plans to purchase less than 85.0 million gallons of the water during a fiscal year that is between October 1 and September 30 at a single service address or campus.</p>		

Austin Water - Austin Water Wastewater Utility Operating Fund	Fee	Note
---	-----	------

Procedures

Upon notification of a major process change that reduces water use projections below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resource Services Division of Austin Water will notify the customer in writing that they will be converted to the commercial class on the billing cycle following the verification of the actual process change in which water use is reduced.

H. Non-residential customers with Onsite Water Reuse Systems or Evaporative Cooling Towers (Multifamily, Commercial and Large Volume)

For those non-residential customers that have been approved for wastewater flow factor billing for onsite water reuse customers per Chapter 15-9 of the City Code, the City will base wastewater billing for domestic usage on a wastewater flow factor using engineered calculations for the premise. The City will calculate wastewater billing for domestic usage based on actual monthly water consumption multiplied by the wastewater flow factor approved for the premise.

New Customers

A. Residential

The City will impute a wastewater average of 5,000 gallons to new residential accounts until they have established a wastewater average. The Director of the Austin Water or the Director's designee has the discretion to adjust the 5,000 gallon average when the customer has had an established wastewater average at another City of Austin service address.

B. Non-Residential Customers without irrigation meter(s) (Multifamily, Commercial, Large Volume and Wholesale)

(1) Except as provided by subsection (2), if a non-residential customer establishes a new account at a service location where an earlier account established a wastewater average, the City will use the earlier wastewater average for wastewater service billing purposes until the new account establishes its own wastewater average.

(2) If in the judgment of the Director of the Austin Water or the Director's designee, the new customer will place a substantially different demand on the wastewater collection and treatment system, the City will bill the new non-residential customer for wastewater service based on actual metered water consumption until the new non-residential customer has established a wastewater average.

C. Wastewater Billing for Domestic Alternate Water Sources.

Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required.

FY 2025-2026 Fee Schedule

---	-----	------

D. Non-residential Customers with associated Irrigation Meters. (Multifamily, Commercial, Large Volume and Wholesale)

If a new non-residential customer has installed a separate City water irrigation meter or alternative irrigation water source on the property, other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base the new customer's wastewater billing for domestic usage on actual monthly water consumption.

E. Criteria and Procedures for new Large-Volume Customers

Criteria

New large volume customers that have requested connection to the water and wastewater system must submit water use projections to Austin Water as part of the service extension process. Austin Water will review the water use projections to verify that the customer would consume more than 85.0 million gallons within a fiscal year at a single service address or campus.

Procedures

After the customer has provided Austin Water with water use projections, Austin Water will verify and approve the projections. On approval, the City will classify the customer as a large volume customer and charge the appropriate rate upon connection to the City's water and wastewater system. If Austin Water does not approve the customer's water use projections as being above the 85.0 million gallon level, the City will classify the customer appropriately.

F. Non-residential customers with Onsite Water Reuse Systems or Evaporative Cooling Towers
(Multifamily, Commercial and Large Volume)

For those non-residential customers that have been approved for wastewater flow factor billing for onsite water reuse customers per Chapter 15-9 of the City Code, the City will base wastewater billing for domestic usage on a wastewater flow factor using engineered calculations for the premise. The City will calculate wastewater billing for domestic usage based on actual monthly water consumption multiplied by the wastewater flow factor approved for the premise.

Retail Monthly Customer Charges:

~~\$10.70~~ \$11.26

Customers will be assessed a retail monthly charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period. Participants in the Customer Assistance Program (CAP) qualify for a waiver of the monthly customer charge.

Wastewater Service Rates for Wholesale Customers:		

(A) Application. For all bills and charges rendered on or after November 1, 2025, the City will charge the following rates for wholesale customers. These charges are applicable to wholesale wastewater service customers of the City of Austin who are water districts, municipal utility districts, or other utilities which have metered water connections. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge will be based on the average water usage during the designated three (3) month wastewater averaging period, or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. For new customers who have not established an average water usage during the December, January, and February billing period, the City will use the actual water consumption figure or the measured sewage volume to establish the

wastewater billing.

(B) New Customers. The volume rate for any wholesale customer that is not listed above will be based on a weighted cost of service average of all Wholesale customers. That rate will remain in effect until the new customer establishes a full 12 month's consumption history. After that time, the Austin Water Utility will establish an individual rate and seek approval of that rate by the City Council.

<p>Rate is \$1.887 per pound of ammonia-nitrogen discharged into Austin Water's wastewater system by an Industrial User when the ammonia-nitrogen concentration is in excess of 35 mg/l. The surcharge fee for ammonia nitrogen will be charged to an Industrial User that uses or produces ammonia-nitrogen in a manufacturing process. The surcharge fee for ammonia-nitrogen will be determined by calculating the difference between the average concentrations discharged from such an Industrial User and the 35 mg/l threshold as described in the formula below:</p> <p>Surcharge fee for ammonia-nitrogen = Volume of wastewater discharged (in millions of gallons) X 8.34 pounds per gallon x [\$1.887 per pound x (Industrial User's average ammonia-nitrogen (in mg/l) - 35 mg/l)]. Transport Discount Program

The Emergency Medical Services Department may offer discounted transport fees (ALS1, ALS2, BLS) under the following circumstances:

Financially Indigent:

Financially indigent means an uninsured or underinsured person who is accepted for care with a discounted obligation to pay for the services rendered based on Charity Care Eligibility System. Services eligible under this procedure will be made available to the patient on a sliding fee scale, in accordance with financial need, as determined in reference to Federal Poverty Guidelines (FPG) in effect at the time of the determination. To qualify an individual must:

Have a family income and family size as described by the Federal Poverty Levels:

Poverty Guideline

AGI falls below the 125% FPG	100%	Discounted Percent
AGI falls below the 150% FPG	75%	Discounted Percent
AGI falls below the 175% FPG	50%	Discounted Percent
AGI falls below the 200%	25%	Discounted Percent

Not have insurance to cover the ambulance service provided

Medically Indigent:

Medically indigent means a patient whose ATCEMS bills, after payment by third-party payers, exceeds a specified percentage of the person's Yearly Income, and who is unable to pay the remaining bill. A medically indigent patient will receive a 50% discount on the qualifying service. To qualify an individual must have:

A family income less than or equal to 500 percent of the Federal Poverty Guidelines

Parking Rates for City Facilities			
The City manager may set a rate for public use of a City parking facility in an amount not to exceed the following rates. The rate must be commercially reasonable with respect to the location of the facility and comparable business practices in the vicinity of the facility; provided, however that a parking rate may be waived or modified by the city manager:			
(1) To avoid financial hardship to a member of the public in an emergency situation, enhance public convenience, safety, or improve efficiency of a parking facility;			
(2) To comply with the terms of a parking contract authorized by the City Council;			
(3) To facilitate public access to city officials and meetings; or,			
(4) To reduce street congestion during significant public events attracting large numbers of people at a venue in the vicinity of a parking facility.			
Note: These authorized parking charges apply to City parking facilities unless a fee for a specific event or location is otherwise prescribed in this fee schedule or other ordinance.

The themes, specific topics and speakers for each of the four days of training are determined by the Grow Green Team, an interdepartmental collaboration lead by WPD and involving staff from departments that have outreach programs related to landscape and sustainability topics (i.e. WPD - demonstration gardens, pesticide use, stormwater controls, earth-wise landscape management; Austin Water - water conservation; PARD - demonstration gardens, Wildlands, invasive species; Austin Resource Recovery - composting, etc.). City facilities are used for free or a minimal rental fee. City staff, representatives from like-minded non-profits and businesses teach the classes. There are some minor costs for administrative materials like nametags. We have provided coffee in the mornings at past trainings so I would like to maintain that practice.

The administrative costs were determined based on past experience of putting on these trainings. For staff speaker costs, job titles of anticipated speakers were used and the hourly rate was determined using the mid-range for that position.

Note: \$20/day with a small discount if people registered for all 4 classes i.e. \$75 versus \$80

The administrative costs were determined based on past experience of putting on similar trainings. For the staff speaker costs, job titles of anticipated speakers were used and the hourly rate was determined using the mid-range for that position. Four different venues were contacted to determine estimated food costs. The average cost among those contacted was used for the calculations.

Utility Charges/Rates

Monthly Drainage Charge

A credit of up to a 50% reduction in the square feet of impervious cover may be provided for voluntary stormwater control measures as established by administrative rule.

Monthly Charge (all properties) = Impervious Cover (sqft) X Monthly Base Rate X Adjustment Factor

Monthly Base Rate: \$0.00593

% of Impervious Cover = Impervious Cover / Property Size

Adjustment Factor (AF) unique to each property:

AF = (1.5425 x % Impervious cover) + 0.1933

Regional Stormwater Management Participation Fees (RSMP)

FY 2025-2026 Fee Schedule

Watershed Protection - Drainage Utility Fund

Fee

Note

Each Regional Stormwater Management Program (RSMP) agreement is mutually exclusive. No credit will be given for impervious cover paid for in previous RSMP agreements for subsequent phases of development. However, applicants may combine all related phases of a development into one RSMP agreement and remit the associated total payment at the time the permit for the first phase is approved.

NOTE: Requirements for participation in the Regional Stormwater Management Program are located in Section 8.2.2 of the Drainage Criteria Manual. The RSMP payment in lieu of detention consists of two components; the construction cost component (CCC) and the land cost component (LCC). The two components are calculated independently for single-family developments and multi-family / commercial developments. Below are the details of how to calculate the fees.

1. RSMP Construction Cost Component (CCC)

The number of impervious acres is used to determine this part of the participation payment. The number of impervious acres is based on the maximum allowable impervious acreage as allowed by the more restrictive of zoning or watershed ordinance for subdivisions. Site plans may use the actual impervious cover for the site. For each fiscal year, the construction cost adjustment factor shall be recalculated in October as the ratio of the then current September ENR Construction Cost index divided by the September 2018 Construction Cost index. This new construction cost adjustment factor shall be applied to all participation payments collected during that fiscal year.

Commercial & Multi-family Residential Development

Number of Impervious Acres:

a) 0.00 - 1.00	\$129,000.00	per impervious acre
b) 1.01 - 2.00	\$70,000.00	per impervious acre
c) 2.01 - 5.00	\$44,000.00	per impervious acre
d) 5.01 - 10.00	\$29,000.00	per impervious acre
e) 10.01 - 20.00	\$20,000.00	per impervious acre
f) 20.01 - 50.00	\$12,000.00	per impervious acre

f) 20.01 - 50.00	\$12,000.00	per impervious acre
g) 50.01 to 100.00	\$8,000.00	per impervious acre
h) 100.00 +	\$4,000.00	per impervious acre

2. RSMP Land Cost Component (LCC)

The land cost component (LCC) is calculated separately for each type of development, in conjunction with the construction cost component.

$$\text{LCC} = 80\% * (\text{Appraised Land Value} / \text{Appraised Land Area}) * 5\% * (\text{Land Cost Area})$$

Where:

units are [\$/acre * acre = \$]

Land Cost per Acre = Appraisal District (appraised value / appraised area) x Land Cost Area

Land Cost Area =

FY 2025-2026 Fee Schedule

Watershed Protection - Drainage Utility Fund	Fee	Note
--	-----	------

New Development = Gross Site Area - Deductible Areas
 Redevelopment = Limits of construction - Deductible Areas
 Deductible Areas = (Drainage Easements, Water Quality Easements, and Conservation Easements)

Note: Impervious cover areas within easements cannot be deducted from the land cost area.

Land costs will be based on the land valuation. This may be established by a certified appraiser or by Appraisal Districts. The RSMP applicant must provide the parcel identification number for each parcel within the proposed development prior to RSMP approval. Upon RSMP participation approval, the applicant must provide dated copies of either a certified appraisal or the appraisal district's valuation for each parcel within the proposed development. Properties that are not appraised by Appraisal Districts, such as property owned by a governmental entity, may choose to use the capped land cost per acre values for RSMP participation. The land cost will be determined by the appraised value at the time of payment of the RSMP fee, not when the site is approved for participation in the RSMP. The effective date for Appraisal District valuations is the first of October for the current City of Austin fiscal year. If a development encompasses more than one tax parcel, the land cost per acre will be based on the arithmetic mean of the land valuation from all parcels.

The area required for detention used in the land cost component portion of the calculation will be 1% of the total right-of-way area rather than the standard 5% of the total site area provided the following conditions are met:

1. The increase in impervious cover must be less than 10% of the participating right of way area and less than one acre in total; or
2. If the increase in impervious cover is more than one acre, the increase in impervious cover must be less than 5% of the participating right of way area.

If these conditions are not met, the standard 5% of the participating area will be used in the land cost component calculation.

$$3. \text{ RSMP Total Cost} = (\text{CCC} * \text{ENR CCI AF}) + (\text{LCC} * \text{ICAF})$$

Where CCC uses the proposed rate structures and units are [\$/acre (different rates) * acres = \$]
 $\text{ICAF} = (1.5425 \times \text{percent [proposed total] impervious cover}) + 0.1933$

The impervious cover adjustment factor is from the Drainage Charge calculation and adjusts the land cost component down based on the total proposed impervious cover relative to the City's weighted average impervious cover (52.3%). If the impervious cover proposed for a site is greater than the City's weighted average, the ICAF will equal 1.

All Developments

For sites that are in more than one watershed, the calculated RSMP fee will be apportioned by the percentage of the site in each watershed. For sites that have extremely high appraised land values, the calculated payment may be out of proportion with the approximate cost of on-site detention. Therefore, an overall cap of \$440,000 per acre of site area will be used for the calculation when it is determined that the calculated payment would exceed the amount calculated based on this per acre cost. As with the construction cost, this cap will be indexed annually based on the September ENR Construction Cost Index value.

Public Right of Way Improvement Projects

For linear (long and narrow), publicly funded projects that consist of modifications to existing public rights of way or easements, the components of the RSMP participation payment calculation shall be modified as follows:

Construction Cost Component:

The construction cost component for the project will be based on any increases in impervious cover in the drainage areas

Watershed Protection - Drainage Utility Fund**Fee****Note**

to any one or more discharge points from the project area rather than the overall increase in project impervious cover. Some drainage areas may have small decreases in impervious cover. These decreases are not subtracted from increases to other discharge points in the determination of the project increase in impervious cover.

Land Cost Component:

The area required for detention used in the land cost component portion of the calculation will be 1% of the total right-of-way or easement area rather than the standard 5% of the total site area provided the following conditions are met:

1. The increase in impervious cover must be less than 10% of the participating right of way or easement area and less than one acre in total; or
2. If the increase in impervious cover is more than one acre, the increase in impervious cover must be less than 5% of the participating right of way or easement area.

If these conditions are not met, the standard 5% of the participating area will be used in the land cost component calculation.

These types of linear projects may not reduce the project area for the land cost component through the exclusion of any dedicated floodplain easements, drainage easements containing the 100-year floodplain, permanent retention or detention facilities, and other areas undevelopable under applicable City of Austin code.

Single Family**Low Density Development Discount**

The RSMP participation payment for low density developments is discounted based on the difference between the site impervious cover and the city-wide average impervious cover.

Impervious Cover (IC) Adjustment Factor = $(1.5425 \times \text{Site IC}) + 0.1933$ (maximum value of 1.0)

Maximum Payment Cap

The RSMP participation payment is capped based on the estimated cost of underground detention for a site. The cost per acre for underground detention will be adjusted annually on October 1 based on the September Construction Cost Index as reported by Engineering News Record. The base cost per acre in 2021 dollars is \$440,000.00.

Maximum Payment Amount = $(\$440,000 \times \text{CCI Adjustment Factor}) \times \text{Site Area in acres}$

Smart Housing

For developments with certified affordable housing and Smart Housing designation, the RSMP payment will be discounted as described below provided the development meets the listed requirements

- a. For developments with 10%-50% affordable units, the RSMP payment would be discounted by the percentage of affordable units;
- b. For developments with over 50% affordable units, the RSMP payment will be discounted by 50%.

Requirements for Smart Housing discount:

1. Development is certified per the Smart Housing Program
2. Development has an affordability term of 40 years or more
3. Development has a restrictive covenant tying the affordability requirement to the property regardless of the ownership. The term of affordability will be listed in the restrictive covenant
4. Termination of restrictive covenant would require approval by the City of Austin. Early termination would trigger a requirement to pay the remainder of the previously discounted amount based on the payment structure in effect at the time the restrictive covenant is terminated.

A1 = increment of impervious cover from 0 to 1.0 acres, A2 = increment of impervious cover from 1.01 to 2.0 acres,

A3 = increment of impervious cover from 2.01 to 5.00 acres,

A4 = increment of impervious cover from 5.01 to 10.00 acres, A5 = increment of impervious cover from 10.01 to 20.00 acres,

A6 = impervious cover greater than 20.01 acres,

ENR CCI AF = Construction cost adjustment factor. For each fiscal year, the construction cost adjustment factor shall be recalculated in October as the ratio of the then current September ENR Construction Cost index divided by the September 2018 Construction Cost index. This new construction cost adjustment factor shall be applied to all fees collected during that fiscal year.

Impervious cover is the area for which water quality treatment is required pursuant to Section 1.9.2 of the Environmental Criteria Manual. For the purpose of this calculation, impervious cover shall be measured to the nearest 0.01 acre.
