

the U.S. Congress and the reported number of AIDS cases in the Austin Transitional Grant Area. The grant funds may be expended over three years from the date of the annual grant award.

On October 5, 2022, the Austin Public Health Department submitted a grant continuation application in collaboration with the Ryan White HIV/AIDS Program Part C HIV Early Intervention Services and Capacity Development Program partner organizations for the project area, which includes Central Texas Community Health Centers, Inc. d/b/a Community Care, AIDS Services of Austin, and Community Action, Inc. The application process requires a new Competing Application for the first year of each five-year period, with Non-Competing Continuation Applications due for each of the remaining four years in the cycle. These organizations have collaborated on the Part C Program application for approximately 20 years and are collectively identified as an Austin Part C Partner.

On December 2, 2022, the Austin Public Health Department received a Notice of Award (NOA) from the U.S. Department of Health and Human Services, Health Resources and Services Administration in the amount of \$375,537. The award amount is partial funding and a second NOA will be sent later in the fiscal year. The following projects were funded and allocated for a 12-month term beginning January 1, 2023, as follows:

Sub-recipient	FY 22-23 Annual Plan Allocations
Central Texas Community Health Centers, Inc. d/b/a Community Care	\$199,257
Aids Services of Austin, Inc.	\$69,894
Community Action of Central Texas, Inc.	\$51,107
Total	\$320,258

Part C funds will be competed later in 2023, with the new agreement beginning January 1, 2024.

Contracts are contingent upon the continuation of funds from the U.S. Department of Health and Human Services.

Strategic Outcome(s):

Health and Environment; Economic Opportunity and Affordability.
