

Approval of Amendment No. 2 to the Federal Grant Agreement will continue professional services through the Waterloo Greenway Conservancy to identify and recommend possible federal grants that would be appropriate for the Waterloo Greenway Project, the Council-approved Design Plan for the Waller Creek District. Federal grant funding is being pursued to pay for design and construction for the Waterloo Greenway Project, offsetting the rising costs of design and construction of capital improvements for the project.

As noted in the original Agreement, signed by Assistant City Manager Rey Arellano on October 27, 2021, the City and Conservancy shared the costs of hiring a consultant with expertise in obtaining federal grant funds. Each entity contributed \$45,000 for the contract term June 1, 2021, to December 31, 2021. On June 16, 2022, Council authorized the negotiation and execution of Amendment No. 1 to the Agreement extending the contract term January 1, 2022, to December 31, 2022, for an additional \$60,000.

This action is to negotiate and execute Amendment No. 2 to the existing Agreement between the City and the Conservancy to authorize the Conservancy to continue to utilize the services of a grant expert to be jointly funded by the City and the Conservancy for a City funding amount not to exceed \$60,000 for the 12-month term January 1, 2023, through December 31, 2023, with two extension options each in an amount not to exceed \$60,000, for a total agreement amount not to exceed \$285,000 over five years.

**Strategic Outcome(s):**

Safety, Health and Environment, Government that Works for All.
