Additional Backup Information:

On May 24, 2018, the City Council passed Resolution No. 20180524-035 with a unanimous vote, directing City staff to construct and staff five new permanent AFD/EMS stations in the areas of greatest need as identified in the updated 2017 Austin Fire Department/Austin Fire Association Fire Station Risk and Service Delivery Analysis Report. The Loop 360 Fire/EMS station was designated as the third highest priority station.

The Loop 360 Fire/EMS station will be a four bay, two-story building housing both Fire and EMS units.

The proposed ground lease at 4601 Westlake Drive, Austin, Texas 78746 is for 40 years with one additional 40-year option for a total term of 80-years for approximately 1.604 acres of land, more or less. The proposed rate for the first year will be \$150,000.00 to be paid annually, beginning on the "Rent Commencement Date". The "Rent Commencement Date" means that date which is the earlier of (a) twenty four (24) months after Tenant has received Site Plan Approval and a Site Development Permit for the Improvements to be constructed on the Premises, or (b) the date on which Tenant receives the first certificate of occupancy issued by the City of Austin for the Improvements. The Annual Rent shall increase by 2% each year on the anniversary of the "Rent Commencement Date". AFD/EMS will be responsible for one hundred percent (100%) of the building operating expenses, including utilities, maintenance, and janitorial services.

The 40-year term, with one additional 40-year option to extend will allow AFD/EMS to provide valued AFD and

EMS services to the surrounding community, benefit the Fire and EMS response times, and support potential gaps in existing stations' response times.

The table below illustrates the estimated annual real estate costs for the ground lease.
