Additional Backup Information:

This acquisition is for park and recreation purposes. It consists of approximately 2.20 acres located along Slaughter Creek, east of IH-35 and features a pooled section of the creek that will allow for water-based recreation. This destination park will close a gap in the Slaughter Creek Greenbelt system in alignment with the recommendations identified in the Parks and Recreation Department's Long-Range Plan, *Our Parks, Our Future*. It will join existing parkland to the north and form a larger assemblage of parkland with a recent acquisition approved by the City Council on December 8th, 2022, creating 9.05 acres of new public parkland in total for the area.

This acquisition is funded through parkland dedication funds and the 2018 Bond. An independent, third-party appraisal was procured to establish the fair-market valuation of the proposed acquisition. The appraisal supports the purchase price of \$840,000. The amount of the purchase price plus closing costs is not to exceed \$860,000.

Strategic Outcome(s):

Health and Environment.
